DESCRIPTION OF THE UTAH SYSTEM OF HIGHER EDUCATION

The Utah System of Higher Education consists of nine public colleges and universities governed by the State Board of Regents, assisted by local Boards of Trustees. The system includes two major research/teaching universities, two metropolitan/regional universities, and five community colleges. The basic missions of these nine institutions are described below.

UNIVERSITY OF UTAH

The mission of the University of Utah is that of a major urban state university with significant programs of sponsored research and of graduate, professional, and undergraduate education in some 15 colleges and professional schools and their authorized degree programs.

UTAH STATE UNIVERSITY

Utah State University serves as the state's land-grant institution under state and federal legislation and is a primary center of university research and of graduate, professional, and undergraduate education in numerous authorized fields of study.

WEBER STATE UNIVERSITY

Weber State University has the mission of a large comprehensive undergraduate institution seeking to develop and refine programs and achieve distinction within that mission. Any new graduate programs authorized for the institution will not be oriented toward traditional basic research.

SOUTHERN UTAH UNIVERSITY

Southern Utah University has the mission of a four-year undergraduate teaching institution meeting the baccalaureate and assigned vocational training needs of Southern Utah.

COMMUNITY COLLEGES

Snow College, Dixie College, the College of Eastern Utah, Utah Valley State College, and Salt Lake Community College have similar missions as open-access comprehensive community colleges addressing area needs with programs of vocational-technical training, transfer and general education, continuing education for personal enrichment or career counseling, developmental remedial studies, and placement. Program offerings and areas of emphasis among these institutions will differ according to various needs and demands of the students and communities served. In addition to the above mentioned missions, Utah Valley State College is currently authorized by the Board of Regents to offer three baccalaureate level programs serving specific regional needs.

UTAH SYSTEM OF HIGHER EDUCATION
STATE BOARD OF REGENTS
1994-95 DATA BOOK
(Supplement to Operating Budget Request)

EXECUTIVE SUMMARY

This Executive Summary has been prepared to familiarize the reader with key pieces of information contained in this Data Book. Each item is followed by a reference where greater detail and analysis can be found.

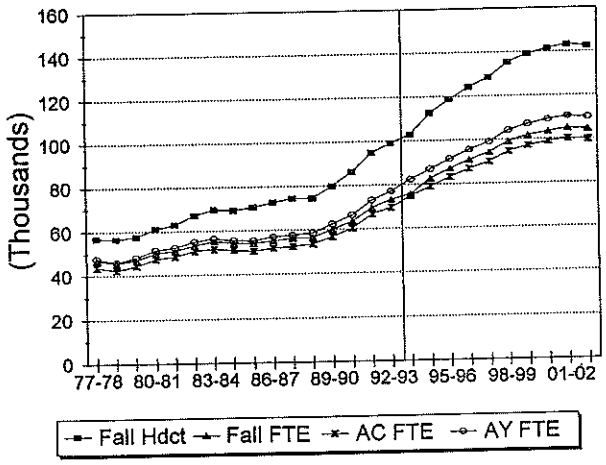
- 14,274 degrees and awards were conferred by Higher Educations Public Institutions in 1992-93 as follows:

Certificates/Diplomas of < 1 year	370
Certificates/Diplomas of > 1 year	537
Associate Degrees	4,356
Bachelor Degrees	6,815
Master Degrees	1,657
Doctorate Degrees	302
First Professional Degrees	237
Total Public Institutions	**14,274**

For more information on Degrees and Awards Conferred, see page 1 of Tab B.

- The growth in the number of students enrolled by the Utah System of Higher Education has gone from approximately 56,800 students (approximately 47,600 full time equivalent (FTE) students) in the fall of 1977 to 102,942 students in the fall of 1993. By 2002-03 there are projected to be 142,556 students (109,974 FTE):

USHE Enrollment History & Projections
Cumulative Enrollment Levels



For more information on USHE Enrollment Levels, see page 3 of Tab C.

- Noncredit customized training will continue to be a substantial growth area in the future, particularly if job markets continue to increase and/or a significant need for retraining exists. In 1992-93, the USHE system total headcount for noncredit training was 35,283. Enrollment in credit programs also increased again this year. The Fall Quarter/Semester of 1993-94, the USHE system total headcount for credit Applied Technology Education is 19,408 (or 13,003 FTE). This is the sixth strait year of growth in credit-offering applied technology education programs in higher education.

For more information on Vocational Education, see page 1 & 2 of Tab D.

- Tuition and Fees continue to play a larger role in Higher Education. Following are the tuition and fees for each institution for an academic year FTE:

University of Utah		Southern Utah University		College of Eastern Utah	
Resident	$2,298.00	Resident	$1,599.00	Resident	$1,128.00
Nonresident	$6,795.00	Nonresident	$4,740.00	Nonresident	$3,517.65
Utah State University		**Snow College**		**Utah Valley State Coll.**	
Resident	$1,896.00	Resident	$1,125.00	Resident	$1,366.50
Nonresident	$5,541.00	Nonresident	$4,380.00	Nonresident	$4,009.00
Weber State University		**Dixie College**		**Salt Lake Community College**	
Resident	$1,638.00	Resident	$1,282.08	Resident	$1,359.00
Nonresident	$4,866.00	Nonresident	$4,195.20	Nonresident	$4,038.00

For more information on Tuition and Fees, see page 10 of Tab E.

- Student financial aid based on student and family income has become increasingly important as costs of attendance increase faster than family income.

Campus Based Grants & Loans

	1992-93
Total USHE funded by Federal & State Appropriations (less Pell Grants)	$15,185,542
USHE Federal Pell Grants (based on financial need)	$49,316,835

Program Based Student Financial Aid

	1992-93
Western Interstate Commission for Higher Ed. (WICHE)	$948,700
Paul Douglas Teacher Scholarship Program	$108,334
Utah Career Teaching Scholarship (UCTS) Program	$831,871

The Utah Student Loan Programs, administered by the State Board of Regents (SBR), include the Utah Higher Assistance Authority (UHEAA), the designated state loan guarantee agency for Federal Family Education Loans, reinsured by the U.S. Department of Education; and the SBR Loan Purchase Program (LPP), providing a secondary market

and local servicing for UHEAA-guaranteed loans. At June 30, 1993, LPP's portfolio included 57,327 individual borrowers with outstanding loan balances totaling $272,928,333.

Utah Student Loan Programs

	1992-93	Cumulative Total incl. 1992-93
UHEAA guaranteed Federal Reinsured Student Loans	$133,980,257	$943,269,718
LPP **purchased** Guaranteed Student Loans	$74,244,960	$528,643,953
LPP **originated** Consolidation Loans	$5,971,420	$29,615,155

For more information on Student Financial Aid, see pages 3-5, 10 & 19 Tab F.

- The percentage of State General and Uniform School Funds allocated to Higher Education has declined. In 1986-87 Higher Educations distribution of State General and Uniform School Funds was 19.05% of the State Budget. In 1993-94 it is 17.65%.

For more information on General and Uniform School Fund percentage distribution, see page 10 of Tab G.

- The Tax Fund Appropriations per FTE have decreased over the last 15 years after adjustments for inflation (constant dollars). The 1992-93 is 10.10% lower than 1976-77.

For more information on the constant dollar expenditures of State Tax Funds, see page 49 of Tab H.

- The 1991-92 Appropriated Direct Cost per FTE Student were as follows:

Appropriated Direct Costs per FTE Student (Total all fields and disciplines)

	Non-Sch Grntg	Sch Grntg	Lower Div	Upper Div	Basic Grad	Advance Grad	Total All Levels
Costs per FTE Student	$2,249	$2,927	$1,701	$4,283	$7,488	$16,030	$3,008
FTE Student/Faculty Ratio	29.5	16.3	26.4	15.3	10.9	5.7	18.9

For more information on Appropriated direct costs, see page 6 & 7 of Tab I.

- Following is a summary of the E & G salaried personnel FTE positions budgeted for 1993-94 for the USHE.

Position	FTE	% of total
Regular Faculty	3,048.00	35.49%
Wage Rated Faculty	913.00	10.63%
Teaching Assistants	257.70	3.00%
Executive Staff	301.90	3.52%
Staff	4,067.60	47.36%
Total	**8,588.20**	**100.00%**

For more information on E & G salaried FTE positions, see page 2 of Tab J.

- Great effort is continually made to recruit and retain quality personnel. All USHE institutions, however, suffer significant compensation gaps when compared to their comparison institutions. The following table summarizes the percent differentials (As noted in the Data Book Tab, Community College gaps have been adjusted for faculty longevity):

	Faculty	Staff
University of Utah	-5.39%	-13.74%
Utah State University	-10.42%	-7.75%
Weber State University	-2.72%	-12.38%
Southern Utah University	-16.33%	-13.64%
Snow College	-15.05%	2.03%
Dixie College	-19.57%	-5.64%
College of Eastern Utah	-20.60%	.40%
Utah Valley State College	-15.91%	-4.96%
Salt Lake Community College	-16.52%	-1.41%

For more information on Compensation Gaps, see pages 34 and 45 of Tab K.

- The following table shows a comparison of Tax Funds Appropriations per FTE in 1986-87 and 1990-91 of USHE institutions as a percentage of the average tax fund appropriations of comparison institutions:

	1986-87	1990-91
University of Utah	82.62%	78.30%
Utah State University	86.63%	75.20%
Weber State University	79.69%	78.57%
Southern Utah University	81.01%	77.07%
Snow College	102.40%	99.85%
Dixie College	95.19%	90.80%
College of Eastern Utah	77.68%	86.88%
Utah Valley State College	70.71%	76.08%
Salt Lake Community College	64.57%	72.75%

For more information on Tax Fund Appropriation Comparisons, see pages 9 and 10 of Tab L.

TAB B
DEGREES & AWARDS

The Degrees & Awards included in Tab B represent information from institutions traditionally listed in previous years. This includes all degrees and awards of the nine public institutions in the Utah System of Higher Education and for comparative information, degrees and awards of traditional non-public institutions: Brigham Young University, Westminster College, and Latter-Day Saints Business College. Not included are awards by other private/proprietary institutions and postsecondary awards by the applied technology centers.

Tables 1 through 8 include Public and Private Institutions
1982-83 through 1992-93

SUPPORT AND MONITORING OF APPLIED TECHNOLOGY EDUCATION
1992-93 REPORT

Enrollment

Noncredit Enrollments

A highly misunderstood role of higher education is it's provision of noncredit, applied technology training. Higher education's efforts to specifically meet business and industry needs through tailored, customized, noncredit training goes largely unnoticed because these programs do not produce full-time equivalent student measures in the same way that approved credit degree programs do. As shown in Table I, the fact remains that last year alone the customized, noncredit offerings accounted for enrollments of 35,283, an 8.1 percent increase over the previous year and a 91.5 percent increase over the past five years. The training was conducted in programs with average lengths varying from 1/2 week to 26 1/2 weeks. Noncredit training includes such programs as custom fit, short term intensive training (STIT), skills center, continuing education, and conferences and workshops. It is interesting to note that even though total non-credit enrollments increased, the custom fit and STIT enrollments have held steady or in some cases actually diminished due to funding limitations. STIT, for example, has not received any funding increases with the exception of inflation at some institutions since its inception four years ago.

Attached as Appendix I is a listing of over 350 companies that either participated directly with customized, noncredit training or hired recipients of that training. Much of this training is self-funded, paid for either by tuition or by the business/industry desiring the training.

Noncredit, customized training will continue to experience a substantial growth in the future, particularly if job markets continue to grow, and/or significant need for retraining exists.

Table I

*Includes Skills Center.

Credit Enrollments

While the enrollment increases in credit programs have not been as dramatic as the noncredit programs, they still have enjoyed six straight years of growth as reflected in Tables II and III. This past year saw a 2.6 percent increase in the FTE over 1991-92. The increase was due, in large part, to a fairly dramatic turn around at UVSC which enjoyed a healthy 9.1 percent increase. The 19,408 credit students for fall quarter and 35,283 noncredit headcount during 1992-93 reflect significant efforts by the institutions of higher education to meet business and industry's needs in training.

There are openings in most of the credit vocational programs in the state and the enrollment pressure that higher education is suffering is not as evident in the applied technology credit programs. In fact, there have been several new credit programs started this year. The institutions agree that if students express an interest in vocational programs, the institutions will work to admit them.

If the system is desirous of maximizing physical facilities and instructional capabilities in applied technology education, major efforts need to be undertaken to help the public understand the job and career opportunities available in programs that require non-baccalaureate training.

Maintenance of Effort

In April of 1989, the Regents adopted a policy for support and maintenance of applied technology education. The policy is an affirmation to the Legislature and the applied technology community of higher education's commitment to applied technology education. The policy evolved through a series of discussions by the Commissioner and staff with the Funding Mechanism Task Force, Chief Academic Officers, Budget Officers, and the Council of Presidents.

The Regents have developed specific funding targets based on formulas to insure sufficient applied technology education efforts. The funding targets are automatically adjusted each year as new monies are distributed. As shown in Table IV, the system exceeded the targeted amounts by some $3.5 million, which indicates the major efforts the institutions are expending to improve applied technology education in the state. Institutional reports also identified ways in which the institutions are promoting applied technology education, whether funds were expended or not.

Table IV

1992-93 MAINTENANCE OF EFFORT - TARGET AND ACTUAL EXPENDITURES		
INSTITUTION	**TARGET**	**ACTUAL**
USU	838,869	1,146,455
WSU	8,105,936	8,541,451
SUU	1,415,344	1,828,413
SNOW	1,150,807	1,170,296
DIXIE	1,361,415	1,643,581
CEU	1,446,161	1,752,522
UVSC	7,232,932	7,716,571
SLCC	12,098,420	13,356,138
SYSTEM TOTAL	33,649,884	37,155,427

Additional Major Efforts in Applied Technology Education

Weber State University

1. Major efforts have focused on activities related to Tech-Prep (a federally supported applied technology program linking the last two years of high school with the first two years of college).

2. The institution has articulated eight applied technology education disciplines and basic academic skills with local ATCs and school districts.

3. Weber has developed two programs for which competencies between secondary and post-secondary have been fully equated providing for university credit regardless of where the course is taught.

Snow College

1. Carl Perkins grant money of $29,139 was spent for vocational equipment.

2. An additional $124,979 from Carl Perkins funds was spent to support applied technology programs.

3. The college received a grant from the High-Tech program for equipment totaling $1,236.

4. Institutional scholarship funds of $10,520 were provided for applied technology.

5. Snow received a state grant for $14,794.

6. Snow continued institutional support for national vocational education week activities.

7. The administration continues to support and participate in the Central Regional Master Plan Coordinating Council.

Dixie College

1. The college is upgrading the computers for the business computer labs, providing additional equipment for the drafting and graphic arts programs, and additional supplies for the automotive programs.

College of Eastern Utah

1. The college provided research and writing assistance to the school districts of southeastern Utah leading to increased support of applied technology. Additionally, CEU personnel are chairing two major coordinating efforts for southeastern Utah.

2. The applied technology area of CEU has assisted business/manufacturing businesses in the area to insure that their growth will be shared by CEU. CEU is also assisting with a patent search as part of the process in manufacturing mine roof jacks.

3. CEU vocational courses are being broadcast by EDNET.

4. The institution has purchased vocational equipment using soft-funding sources equals $110,000.

5. CEU has completed the remodeling of the library and has expanded access to library materials.

6. CEU has completed vocational articulation agreements with the four local school districts and provided faculty development grants to two vocational faculty to adapt courses for EDNET delivery.

Utah Valley State College

1. The college has placed an emphasis on services to special populations as a priority in 1992-93.

2. The curriculum has been reviewed and upgraded.

3. The institution has acquired substantial equipment for use in various departments.

4. UVSC, in cooperation with public education partners, has implemented the Tech-Prep program in the Mountainland Region. The Tech-Prep program is having a positive impact on other programs.

4. UVSC's faculty development program has assisted applied technology faculty in becoming more familiar with computer technology and the use of computer technology in the classroom.

4. The institution continues to strengthen apprenticeship programs.

Salt Lake Community College

1. The college continues to strengthen its ties with Utah State Economic Development Office, local schools, industry, Wasatch Front South Vocational Region Planning Consortium, Salt Lake Community College Advisory Council, and vocational directors through improved communications, marketing and involvement.

2. SLCC is continuing efforts to communicate with high school students which resulted in approximately 20,000 personal telephone contacts regarding Applied Technology Center Program opportunities. These efforts were directed at building non-credit programs for high school students who attended schools in the Wasatch South Front Region.

3. The college has provided a significant expansion of the ATC program occurring at Tooele High School with portable buildings and district equipment facilitated courses in electronics and other Applied Technology programs.

4. In order to meet business and industry needs, new applied technology programs are continuing to be developed and piloted in the School of Continuing and Community Education.

5. New programs added in the Applied Technology area include:

   Certificate of Advanced Mastery
   - Computer Technology
   - Automation
   - Electronics
   - Telecommunications
   - Video Systems

   Associate of Science
   - Interpreting for Deaf

   Associate of Applied Science
   - Occupational Therapy Assistant
   - Physical Therapy Assistant

6. The college continues its efforts to improve and expand Tech-Prep and Two plus Two projects. The college has also continued to support the Academy of Technology.

CAMPUS-BASED & PROGRAM-BASED STUDENT FINANCIAL AID

INTRODUCTION

The following table provides statistical information concerning a number of student financial aid Federally-supported student financial aid programs. These five programs all are "campus-based," including the SSIG program as operated in Utah. Annual state appropriations to the Board of Regents provide for a small part of the required matching funds for the FWS program, and all required matching funds for the other four programs for USHE institutions. In addition to USHE institutions, Westminster College and several Applied Technology Centers participate in the SSIG program.

Program	Description
Federal Perkins Loans	The Federal Perkins Loan Program is named in honor of Carl D. Perkins, the former chair of the U.S. House of Representatives Education and Labor Committee. Perkins loans are low interest (5 percent) loans with a maximum 10 year repayment period. The Federal Perkins Loan program is called a "campus-based" program since each institution is responsible for administering the program on its own campus. The matching requirement in this program is 15% of the capital contributions to the institutional loan fund in FY 1994, and increases to 25% in FY 1995.
Federal Work-Study (FWS)	The FWS program provides jobs for undergraduate and graduate students who qualify for financial aid. Employers pay a portion of the student's wages while the FWS funds pay the remainder. FWS is also one of the campus-based programs with funding received directly from the U.S. Department of Education. Institutions are now required to provide an annual 25 percent match for the Federal Work-Study funds.
Federal Pell Grants	The Federal Pell Grant program is the largest Federal student financial aid grant program. Federal Pell Grants are need-based awards to undergraduate students. Funding for the Federal Pell Grant program comes directly from the U.S. Department of Education to the individual campuses. The Pell Grant program is provided to every eligible applicant. For the 1994-95 award year the minimum award is $400 and the maximum is $2,300.
Federal Supplemental Educational Opportunity Grants (FSEOG)	The FSEOG program is a grant program for undergraduate students with exceptional need. Awards of up to $4,000 per year are available depending on the student's need. The FSEOG program is also considered a campus-based program. Funding for the program is provided by the U.S. Department of Education. For FY 1994, the State matching requirement was increased from 15 to 25 percent.
State Student Incentive Grants (SSIG)	The SSIG program is a grant program for undergraduate students with substantial financial need. Awards of up to $5,000 per year are available depending on the student's need and available funds. Funding for the program is provided partially by the U.S. Department of Education with a minimum of 50 percent State matching and maintenance of effort requirement of the designated State agency. The SSIG program in Utah operates on a decentralized system with the individual institutions responsible for the administration of the program.

The Student Exchange Program administered through the Western Interstate Commission for Higher Education (WICHE) and the Regional Dental Education Program (RDEP) assist Utah students in obtaining training in dentistry, veterinary medicine, physical therapy, pharmacy, law and architecture under the interstate compact. Participating students pay resident tuition and general fees of the receiving state or reduced tuition at private institutions. The chart above is a summary of Utah's participation in these programs.

The Paul Douglas Scholarship Program is a federally-funded program established to provide scholarships to encourage and enable outstanding high school graduates (who were in the top 10% of their graduating class) to pursue teaching careers. Students may apply at their high school for this scholarship which provides up to $5,000 each academic year, for no more than four academic years, of education in preparation to becoming a teacher. Students receiving this scholarship will be required to complete a teacher certification program and teach on a full time basis for a period of not less than two years for each year of scholarship funding received.

The Utah Career Teaching Scholarship (UCTS) Program is designed to encourage outstanding students to pursue careers as teachers. The program is open to students enrolled in a program of study leading to teacher certification in a state-supported college or university, Brigham Young University, or Westminster College. Up to 365 students are awarded tuition and regular student fee waivers. In addition to waivers, up to 100 of $500 per quarter/$750 per semester, and up to 20 UCTS recipients receive the Premier award of $1,000 per quarter/$1,500 per semester.

FEDERAL FAMILY EDUCATION LOAN PROGRAM

INTRODUCTION

The Federal Family Education Loan Program (FFELP) makes four types of long-term, low interest loans available for students and the parents of students enrolled in eligible postsecondary education institutions. The loan types, described below, are: Federal Stafford Loans, Federal Parental Loans for Undergraduate Students (PLUS), Federal Supplemental Loans for Students (SLS), and Federal Consolidation Loans. FFELP loans are made primarily by commercial lenders and are insured against loss by designated guarantee agencies and reinsured by the Federal government.

The FFEL program is the largest single source of student financial assistance in the nation. For the federal fiscal year 1992, national loan volume totaled $14.8 billion consisting of approximately 5.1 million loans. Since the inception of the program, more than $142 billion of guaranteed student and parent loans have been made.

UTAH HIGHER EDUCATION ASSISTANCE AUTHORITY

Utah Higher Education Assistance Authority (UHEAA) is the designated guarantee agency in Utah. The tables and graphs on the following pages describe the loan volume and related statistics for loans guaranteed by UHEAA.

BASIC PROGRAM PROVISIONS

A summary of the basic provisions for each of the FFELP loan programs is provided below:

Program	Description
Federal Stafford Loans	The Federal Stafford Loan program, named in honor of former Senator Robert Stafford, provides both subsidized and unsubsidized loans according to an individual student's financial need. For subsidized Stafford loan borrowers who demonstrate financial need, the federal government subsidizes (pays) the interest accruing while the student remains in school and during a six month "grace" period. A student who does not qualify for the maximum amount through a subsidized loan may obtain the additional funding within the authorized loan limit through an unsubsidized Stafford loan. Interest on unsubsidized Stafford loans during school and grace periods may either be paid as accrued or capitalized and added to the loan principle, at the borrower's option. Eligible students may borrow up to the following loan amounts:

First-Year Undergraduates	$2,625 Annually	
Second-Year Undergraduates	$3,500 Annually	
Third-Year and Remaining Undergraduates	$5,500 Annually	
Graduate Students	$8,500 Annually	
Cumulative Loan Limit for Undergraduate Study		$23,000
Cumulative Loan Limit for Undergraduate and Graduate Study Combined		$65,500

The current interest rate on Federal Stafford Loans is a variable rate based at 3.1% above the 91-day treasury bill and is adjusted annually. The Federal Stafford Loan interest rate is 6.22 percent through June 30, 1994. The maximum repayment period, which begins six months after the student is no longer attending school on at least a half-time basis, is 10 years.

Program	Description
Federal PLUS Loans	Federal PLUS Loans are available to the parents of dependent undergraduate or graduate students. A parent can borrow up to the dependent student's cost of attendance (depending on other student aid received) each academic year. Interest on Federal PLUS Loans is at a variable rate based on the 52-week Treasury bill. The current Federal PLUS interest rate is 6.64 percent through June 30, 1994. Repayment on Federal PLUS Loans begins when the loan is made and extends over a maximum 10-year period.
Federal SLS Loans	Federal SLS Loans are available to independent undergraduate students, graduate students and, in some cases, dependent students. Eligible students may borrow up to the following SLS loan amounts:
	First and Second-Year Undergraduates — $ 4,000 Annually
	Third-Year and Remaining Undergraduates — $ 5,000 Annually
	Graduate Students — $10,000 Annually
Federal Consolidation Loans	The Federal Consolidation Loan Program allows borrowers to combine eligible types of outstanding student loan debt into a single consolidation loan. Federal Consolidation Loans are made at a fixed interest rate based on the rates of the loans consolidated, and may have a maximum repayment period of up to 30 years.

COHORT DEFAULT RATES

In June, 1989, the U.S. Department of Education (ED) implemented a default reduction initiative to combat defaults in the FFEL Program. Under ED's default reduction plan, a "cohort" default rate is calculated and published for each participating school. Schools with default rates above specified percentages are subject to various sanctions or limitations. ED also began to publish informational cohort default rates for guaranty agencies and lenders, beginning with federal fiscal year 1991.

Table 11 provides information regarding cohort default rates for Utah education institutions for three years, and, for 1991 for Utah lenders and for UHEAA, compared with national counterparts.

The cohort default rate is determined by selecting a group of borrowers who entered repayment in the same year and by tracking this "cohort" group over a specified time to determine the percentage of such borrowers who default within that time period. The formula for determining the fiscal 1991 cohort default rates is as follows:

$$\frac{\text{\# of Borrowers who Defaulted in Fiscal Year 1991 or 1992 (October 1, 1990 through September 30, 1992)}}{\text{\# of Borrowers who Entered Repayment in Fiscal Year 1991 (October 1, 1990 through September 30, 1991)}}$$

The cohort default rates are calculated from data supplied by guaranty agencies through an annual "tape dump" process directed by ED. Only federal Stafford and SLS program loans which qualify for federal reinsurance are included in the cohort default rate calculations. The formula described above is used to determine cohort default rates for schools with 30 or more borrowers entering repayment in fiscal 1991. For schools with fewer than 30 borrowers entering repayment in fiscal 1991, the cohort default rate is the average of the rates calculated for the three previous fiscal years. Schools which have operated less than three years are considered too new for a meaningful rate to be calculated.

For 1991, UHEAA's cohort default rate (covering experience for all participating schools and lenders) was 7.5%, which ranked 11th lowest nationally. The national average for all programs was 17.5%, which was 4.9 percentage points below the previous year, a 22 percent reduction reflecting some impact from nationwide default reduction efforts. The favorable Utah performance on this measure is in part attributable to a relatively high percentage of loans to students attending four-year institutions.

UTAH STATE BOARD OF REGENTS
LOAN PURCHASE PROGRAM

The Student Loan Purchase Program was formed in 1977 for the purpose of making loans to, and purchasing the loans of, qualified students attending eligible institutions of higher education. The Program, which began operations in January 1979, provides a secondary market for student loans which are guaranteed by the Utah Higher Education Assistance Authority (UHEAA) and originated by Utah lenders.

At the present time, 28 Utah lenders are originating student loans guaranteed by UHEAA. Of these 28 lenders, 26 of them also participate in the Board's secondary market activities and generally speaking sell their loans to the Loan Purchase Program at or prior to the time the borrower leaves school and begins repayment.

In October 1987, the Loan Purchase Program also began originating Consolidation Loans which provides a borrower with the opportunity to combine eligible types of outstanding student loan debts into one, new consolidation loan. Through a Consolidation Loan, a borrower is able to make a single monthly payment and can generally lower the amount of the monthly payment over the extended repayment period.

Following is a table of student loans purchased and originated by the Loan Purchase Program since inception:

Year Ended June 30	Loans Purchased	Consolidation Loans Originated
1979	$ 21,320,674	
1980	25,048,084	
1981	3,984,461	
1982	21,366,185	
1983	48,340,963	
1984	40,475,239	
1985	18,773,146	
1986	32,062,783	
1987	29,581,200	
1988	30,241,627	$ 2,671,635
1989	35,549,411	3,956,955
1990	38,570,030	4,776,965
1991	54,916,532	5,226,086
1992	54,168,658	7,012,094
1993	74,244,960	5,971,420
TOTAL	$528,643,953	$29,615,155

At June 30, 1993, the Loan Purchase Program's portfolio of student loans consisted of 57,327 borrowers with an aggregate outstanding balance totaling $272,928,333. The student loan portfolio is financed through tax exempt student loan revenue bonds issued by the Board of Regents. At June 30, 1993, there were $332,770,000 of bonds outstanding. These bonds are secured by the assets of the Program and are not liabilities of the State of Utah.

HISTORICAL INFORMATION ON USHE APPROPRIATED BUDGETS

Background

The analysis presented in the following graphs and tables has been prepared to provide a neutral analysis of recent budget history for the USHE and for each individual institution. This is one of three basic data sets developed to prove a balanced basis for analysis of the relative funding needs of USHE institutions. The other two data sets are the USHE Cost Study, and Comparison Institutions Financial Information.

Explanation of Attachments

Figures 1 through 6 show both cumulative 15-year relationships and most recent 1-year relationships between enrollment change and changes in constant dollar expenditures, State tax funds, and tuition revenues per FTE student for each institution and total USHE. The graphs support the observation that both expenditures per FTE and tax funds per FTE tended to be negatively associated with enrollment growth over the 15-year period. In other words, funding generally did not follow enrollment growth to an adequate degree. Looking at Figure 5, however, there is no discernable long-term relationship between enrollment growth and tuition revenues per FTE student.

Looking at Figures 7 and 8, the following patterns are apparent. The high point in purchasing power per student for total USHE was in 1978-79. This high point followed several years of state revenue growth during which time executive and legislative policy supported improving the resources available to provide a high quality system of higher education. Between 1979-80 and 1982-83, USHE absorbed significant enrollment increases without needed increases in funding to support the added students. This compounded by high inflation during that period, including double digit CPI increases in 1979-80 and 1980-81.

After 1982-83, the Board instituted annual funded enrollment targets to prevent further erosion in the resource support to maintain acceptable quality for students enrolled. In 1984-85 and 1985-86 some gains were achieved. However, limited state revenues, and aggressive institutional enrollment policies have caused deterioration since 1985-86. Constant dollar expenditures and tax funds per FTE budgeted for 1992-93 are lower than at any time in recent history. At the same time, tuition revenues per FTE are expected to reach record highs (although generally not high when compared to national averages and peer institutions, except in some of the two-year colleges). Figures 9 through 26 provide similar trend information for each individual institution.

Table 1 provides basic data on the net changes for the 15-year period, for each institution and total USHE. Finally, source data are arrayed in the appendix for those who may with to understand the calculations behind the trends summarized in the graphs and Table 1.

Instructional Costs Analysis (Schedule B) 8

UTAH SYSTEM OF HIGHER EDUCATION - COST STUDY

The USHE cost study provides information by major program on direct and calculated indirect instructional costs for each institution and for the total system. The cost study is prepared two ways: for appropriated funds only, and for total funds including non-appropriated restricted and auxiliary enterprise funds.

Direct and indirect costs of instruction in courses creditable for degrees or other formal awards are broken down between Vocational Education, Lower Division, Upper Division, Basic Graduate, and Advanced Graduate courses, and the following figures are provided for each institutional category: (1) Total Appropriated Instructional Expenditures; (2) Calculated Estimated Full Cost of Instruction; (3) Annualized number of Academic Year Equivalent FTE Students; (4) Calculated Appropriated FTE Student/Faculty Ratio (students per faculty FTE); (5) Appropriated Direct Cost per FTE Student; and (6) Calculated Full Cost of Instruction per FTE Student.

Appropriated direct costs of instruction include applicable expenditures from Education and General line items plus other line items that support instruction.

A six-year history of key elements of the cost study and five summary tables from the 1992-93 cost study are provided in pages 2 through 7, followed by institutional schedules showing greater detail on the calculations. Schedule A for total USHE and for each institution provides information on the indirect cost allocations by major program, and Schedule B provides both dollar amounts and amounts per FTE student for full as well as direct costs of instruction. The Schedules are arranged so that for Total USHE and for each institution the schedule from **Appropriated Funds** cost study is on the left-hand page and the equivalent schedule from the **Total Funds** Cost Study is on the facing right-hand page.

In looking at the cost information for different institutions, the reader should keep in mind the factors that influence costs, particularly direct and indirect costs of instruction. These include level of instruction (advanced courses typically are more expensive), subject matter mix (Natural Sciences, Engineering, Fine Arts, Health Professions typically are more expensive), institutional size, and amount of physical plant in relation to enrollment size.

It is not invalid to compare USHE instructional costs desegregated by level and subject matter cluster. Such additional information is available upon request. But this information should not be the exclusive basis for judging relative adequacy of institutional budgets. Equally appropriate and useful are comparisons of Utah institutions with external comparison groups having similar missions, as provided under Tab L of this Data Book.

Readers who would like additional information on the cost study methodology or have questions about the data should contact the Associate Commissioner for Budget and Finance.

COMPARATIVE RECENT HISTORY OF FACULTY SALARIES AND COMPENSATION IN UTAH PUBLIC HIGHER EDUCATION

Background

The analysis presented in the following graphs and tables outlines recent historical relationships between faculty salary and compensation data at USHE institutions and at comparable institutions. The purpose of this analysis is to provide a historical context and a wider breadth of comparison for faculty salary and compensation data.

Explanation of Attachments

A twelve-year history of average faculty salary and compensation data for each USHE institution and for its corresponding group is included in Tables 1 and 2. These data are adjusted to reflect constant 1992 dollars in Tables 3 and 4.

The University of Utah and Utah State University are compared to three groups:

- Comparison (Peer) Institutions
- All Research 1 Institutions (U of U's classification)
- A composite of Research 1 and 2 Institutions (USU's previous classification was Research 2, but it presently meets criteria for Research 1 status.)

Weber State University and Southern Utah University are also compared to three groups:

- Comparison (Peer) Institutions
- All Comprehensive 1 Institutions (WSU's and SUU's current classification)
- A composite of Comprehensive 1 and 2 Institutions

The five community colleges are compared to two groups:

- Comparison (Peer) Institutions
- Institutions Without Academic Ranks (almost all of which are community colleges)

Figures 1 through 18 exhibit compensation data for each USHE institution. The top graph on each page compares the USHE institution to the above-mentioned groups on a current dollar basis. The bottom graph shows the compensation data adjusted to constant dollar levels.

Trend Analysis

Trends in compensation increases, as shown on the graphs, indicate that USHE institutions have not kept pace with similar groups of schools, particularly since 1985-86. The constant dollar graphs show that some institutions have fared better than others in regard to the inflation of the 1980's, but most have lost ground since 1985-86. Some schools have gained ground in recent years primarily because of internal reallocation to faculty compensation and most recently because of budget constraints in other states.

USHE ANALYSIS OF FACULTY SALARY AND COMPENSATION COMPARABILITY

Methodology

Each year the Office of the Commissioner prepares an analysis that compares faculty salaries and compensation at USHE institutions to faculty data at comparison institutions. The report helps determine recommendations made by the Commissioner, in consultation with USHE Presidents, for competitive equity adjustments.

The primary source of information used in the analysis is "The Annual Report on the Economic Status of the Profession 1992-93," published by the American Association of University Professors (AAUP) in *Academe*, March-April 1993.

The data are analyzed by individual faculty rank for the four-year institutions and by all faculty combined for the two-year institutions. The four-year institutions are analyzed in this manner because each institution has a unique distribution of faculty members across ranks and distribution among ranks is also indicative of longevity. Use of all-rank averages in determining equity comparisons for a specific college or university would distort the comparison.

Averages are used initially for two-year institutions, however, because comparable data by rank are not available at all of these institutions. To compensate for this lack of data, the Commissioner's office conducted a longevity study for Utah's colleges and their comparison institutions. The results are listed on the following page:

TABLE I AVERAGE YEARS OF SERVICE FOR FULL-TIME INSTRUCTIONAL FACULTY		
INSTITUTION	AVERAGE YEARS OF SERVICE	DIFFERENCE FROM COMP AVG
Anne Arundel Community College	14.00	
Chemeketa Community College	N/A	
Danville Community College	16.60	
Grand Rapids Junior College	20.00	
Joliet Junior College	13.04	
North Idaho College	11.40	
Onondaga Community College	15.00	
Spokane Community College	13.30	
Western Wyoming Community College	8.16	
Yavapai College	10.10	
Comparison Group Average	13.51	
Snow College	8.85	-4.66
Dixie College	13.10	-0.41
College of Eastern Utah	8.00	-5.51
Utah Valley State College	8.32	-5.19
Salt Lake Community College	7.20	-6.31

This data shows that the average years of service figure for all of Utah's colleges is below that of the comparison group average. This is most likely due to the enrollment growth experienced by Utah institutions and the new faculty members hired to instruct the large numbers of new students.

In order to address the differential in longevity, the following rationale was devised. Analyzing faculty salary increases for the past eight years at the comparison institutions revealed that increases grew one percent above inflation at these institutions. If the faculty pool had remained constant at Utah's colleges, average faculty salaries would likely have been higher by the estimated one percent for each year of difference in average years of service at the comparison institutions. Therefore, for each year of differential, one percentage point is subtracted from the gap computed from the AAUP information.

Findings

Table II displays Utah's actual salary and compensation standing in relation to comparison institutions. Represented in Table II is a five year history of percentage gaps in total compensation. Both initial AAUP gaps and adjusted gaps are shown for Utah's colleges for 1992-93.

Table II
USHE Compensation Gaps By Year

The AAUP detail for the individual comparison institutions and the Utah institutions are provided in the following tables. <u>These tables will not reflect the adjustments made to the college gaps</u>.

U of U	Tables 1-A and 2-A
USU	Tables 1-B and 2-B
WSU	Tables 1-C and 2-C
SUU	Tables 1-D and 2-D
Colleges	Tables 1-E and 2-E

For each institution, the top of Table 1 represents the 1992-93 actual salary comparisons while the bottom of Table 1 displays 1992-93 actual compensation information. The calculation of competitive faculty salary adjustment for consideration in the 1993-94 operating budget request is shown for each institution in Table 2.

UTAH SYSTEM OF HIGHER EDUCATION
OFFICE OF THE COMMISSIONER

July 14, 1993

ANALYSIS OF NON-EXEMPT STAFF SALARY AND COMPENSATION COMPARABILITY

Methodology

This report constitutes the annual update of the Non-Exempt Staff Salary Survey. It compares salary and compensation levels of non-exempt staff at Utah institutions to salary and compensation levels of non-exempt staff in local and statewide area markets.

Salary data from USHE institutions are obtained yearly. Marketplace data are also gathered yearly for northern Utah by USU, for the greater Ogden area by WSU, for the greater Salt Lake area by the U of U and SLCC, and for Utah County by UVSC. Every three years all local marketplaces for the nine institutions are surveyed. Survey responses are entered into Salary Survey Expert software by the institutions and forwarded to the Commissioner's office for consolidation and analysis.

Because this is an interim year, salary data were gathered for Logan, Ogden, Salt Lake City and Provo. This information is compiled for a statewide database to which all USHE institutions are compared.

Due to low response rates in the Salt Lake market, the Radford Salt Lake City salary survey has been incorporated into this survey. Radford is able to obtain salary and benefits information from many of the large employers in the area. The U of U and SLCC will continue to survey Salt Lake businesses that do not respond to the Radford survey.

In addition to salary data, this analysis provides benefits information; but rather than gather benefits figures yearly and impose a substantial extra burden on respondents, the data is gathered once every three years. The relationship between benefits and salaries for institutions is estimated in interim years. Benefits data was last collected in 1991-92. Therefore, those figures are used to estimate benefits and total compensation for the current year. Salary-related benefits are linked directly to actual average salary for a given year while other non salary-related benefits are held constant.

Findings

Comparisons from 1986-87 through 1992-93 by institution are summarized in Table 1 and Figures 1 through 9. Using percentages, these exhibits show salary, benefits and total compensation comparisons for each institution as compared to its relative marketplace. These differentials are summarized below:

NON-EXEMPT STAFF SALARY SURVEY SALARY AND COMPENSATION DIFFERENTIALS		
Institution	Salary	Compensation
University of Utah	-27.93%	-13.74%
Utah State University	-26.03%	- 7.75%
Weber State University	-29.48%	-12.38%
Southern Utah University	-32.74%	-13.64%
Snow College	-13.49%	2.03%
Dixie College	-23.36%	-5.64%
College of Eastern Utah	-13.75%	0.40%
Utah Valley State College	-28.37%	- 4.96%
Salt Lake Community College	-17.46%	- 1.41%

The average salary gaps range from -32.74 percent at SUU to -13.49 percent at Snow College. After considering the impact of fringe benefits on total compensation, the gaps narrow to -13.64 percent and 2.03 for these institutions.

Salary increases provided by the legislature and internal reallocations by institutions serve to decrease gaps to some extent. The percentage salary increases for 1993-94 are listed below:

NON-EXEMPT STAFF PERCENTAGE SALARY INCREASES	
University of Utah	3.6%
Utah State University	4.7%
Weber State University	3.6%
Southern Utah University	4.8%
Snow College	4.2%
Dixie College	3.1%
College of Eastern Utah	5.9%
Utah Valley State College	4.5%
Salt Lake Community College	4.9%

Footnote:

a. Local Markets were used for University of Utah, Weber State University, and Salt Lake Community College and statewide Markets were used for all others prior to 1992-93.
In 1992-93 all institutions were compared to a statewide market.

b. Benefit costs were estimated during 1986-87 and 1987-88 based on 1985-86 actuals.
Benefit costs were estimated during 1989-90 and 1990-91 based on 1988-89 actuals.
Benefit costs were estimated during 1992-93 based on 1991-92 actuals.

COMPARISON GROUP FINANCIAL COMPARISONS

Background

The Commissioner's Office develops annual analyses of faculty compensation and of tuition and fees for USHE institutions compared to selected sets of comparison institutions. The comparison institution sets were updated in 1990 to correct for changes in the status of some of the institutions on previous comparison lists. In every case, the result of the changes was a closer correlation for faculty salaries and total compensation between USHE institutions and their comparison groups. In the above-mentioned analyses, four sets of comparison institutions are used: one each for the University of Utah and Utah State University, a single set for both Weber State University and Southern Utah University and one set for all five colleges.

The following analysis uses these same comparison groups in evaluating revenues and expenditures per FTE students at each USHE institution. The data for Fiscal Years 1987 through 1991 are obtained from the U.S. Department of Education, Center for Education Statistics. Comparisons based on the national database are edited and processed by the National Center for Higher Education Management Systems (NCHEMS).

Description of Data Presented

Figures 1 through 9 provide individual Financial Indicators Profiles for the latest available year for each USHE institution, comparing the Utah institution to the appropriate comparison group on eleven of the most relevant indicators. The first three indicators are key revenue relationships and the remaining eight are key expenditure relationships. These eleven indicators and additional indicators are presented in greater detail in the tables following the figures. Institutions are listed in each table from high to low according to the most recent year.

Findings

University of Utah: Below average appropriations and tuition/fees. Above average performance in obtaining government grant and contract funding. Below average expenditures across the board, especially in instruction and in scholarships/fellowships.

Utah State University: Below average appropriations and tuition/fees, but substantially above average performance in obtaining grant and contract funds. At or below average expenditures in most categories, with the exception of research.

Weber State University & Southern Utah University: Below average tax appropriations and tuition and fees. Below average instructional expenditures.

Colleges: Average tax appropriations at CEU, below average at the other colleges. Below average tuition/fees at Snow and CEU and above average at Dixie, UVSC and SLCC. Above average performance in obtaining grants and contracts. Below average instruction expenditures at all five colleges.
