DESCRIPTION OF THE UTAH SYSTEM OF HIGHER EDUCATION

The Utah System of Higher Education consists of nine public colleges and universities governed by the State Board of Regents, assisted by local Boards of Trustees. The system includes two major research/teaching universities, two metropolitan/regional universities, and five community colleges. The basic missions of these nine institutions are described below.

UNIVERSITY OF UTAH

The mission of the University of Utah is that of a major urban state university with significant programs of sponsored research and of graduate, professional, and undergraduate education in some 15 colleges and professional schools and their authorized degree programs.

UTAH STATE UNIVERSITY

Utah State University serves as the state's land-grant institution under state and federal legislation and is a primary center of university research and of graduate, professional, and undergraduate education in numerous authorized fields of study.

WEBER STATE UNIVERSITY

Weber State University has the mission of a large comprehensive undergraduate institution seeking to develop and refine programs and achieve distinction within that mission. Any new graduate programs authorized for the institution will not be oriented toward traditional basic research.

SOUTHERN UTAH UNIVERSITY

Southern Utah University has the mission of a four-year undergraduate teaching institution meeting the baccalaureate and assigned vocational training needs of Southern Utah.

COMMUNITY COLLEGES

Snow College, Dixie College, the College of Eastern Utah, Utah Valley State College, and Salt Lake Community College have similar missions as open-access comprehensive community colleges addressing area needs with programs of vocational-technical training, transfer and general education, continuing education for personal enrichment or career counseling, developmental remedial studies, and placement. Program offerings and areas of emphasis among these institutions will differ according to various needs and demands of the students and communities served. In addition to the above mentioned missions, Utah Valley State College is currently authorized by the Board of Regents to offer three baccalaureate level programs serving specific regional needs.

UTAH SYSTEM OF HIGHER EDUCATION
STATE BOARD OF REGENTS
1995-96 DATA BOOK
(Supplement to Operating Budget Request)

EXECUTIVE SUMMARY

This Executive Summary has been prepared to familiarize the reader with key pieces of information contained in this Data Book. Each item is followed by a reference where greater detail and analysis can be found.

- 15,318 degrees and awards were conferred by Higher Education's public institutions in 1993-94 as follows:

Certificates/Diplomas of < 1 year	467
Certificates/Diplomas of > 1 year	576
Associate Degrees	4,843
Bachelor Degrees	7,438
Master Degrees	1,505
Doctorate Degrees	266
First Professional Degrees	223
Total Public Institutions	**15,318**

For more information on Degrees and Awards Conferred, see page 1 of Tab B.

- The growth in the number of students enrolled by the Utah System of Higher Education has gone from 56,838 students (47,572 full time equivalent (FTE) students) in the fall of 1977 to 110,594 students (83,133 FTE) in the fall of 1994. By 2003 there are projected to be 140,498 students (105,401 FTE).

For more information on USHE Enrollment Levels, see page 17 of Tab C.

- Non-credit customized training will continue to be a substantial growth area in the future, particularly if job markets continue to increase and/or a significant need for retraining exists. In 1993-94, the USHE system total headcount for non-credit training was 44,084. Enrollment in credit programs also increased again this year. For the Fall Quarter/Semester of 1994-95, the USHE system total headcount for credit Applied Technology Education is 19,900 (or 13,195 FTE). This is the seventh straight year of growth in credit-offering applied technology education programs in higher education.

For more information on Vocational Education, see page 1 & 2 of Tab D.

- Tuition and Fees continue to play a larger role in Higher Education. Following are the tuition and fees for each institution for an academic year FTE:

University of Utah		Southern Utah University		College of Eastern Utah	
Resident	$2,380.50	Resident	$1,698.00	Resident	$1,189.50
Nonresident	$7,284.00	Nonresident	$5,628.00	Nonresident	$3,988.50
Utah State University		**Snow College**		**Utah Valley State College**	
Resident	$2,022.00	Resident	$1,173.00	Resident	$1,419.69
Nonresident	$6,147.00	Nonresident	$4,935.00	Nonresident	$4,421.70
Weber State University		**Dixie College**		**Salt Lake Community College**	
Resident	$1,743.00	Resident	$1,331.64	Resident	$1,410.00
Nonresident	$5,514.00	Nonresident	$4,780.44	Nonresident	$4,302.00

For more information on Tuition and Fees, see page 5 of Tab E.

- Student financial aid based on student and family income has become increasingly important as costs of attendance increase faster than family income. Federal Pell Grant funding dropped 16% during the year.

Campus Based Grants & Loans

	1993-94
Total USHE funded by Federal & State Appropriations (less Pell Grants)	$17,245,904
USHE Federal Pell Grants (based on financial need)	$41,506,929

Program Based Student Financial Aid

	1993-94
Western Interstate Commission for Higher Ed. (WICHE)	$1,010,700
Paul Douglas Teacher Scholarship Program	$95,000
Utah Career Teaching Scholarship (UCTS) Program	$898,619

The Utah Student Loan Programs, administered by the State Board of Regents (SBR), include the Utah Higher Education Assistance Authority (UHEAA), the designated state loan guarantee agency for Federal Family Education Loans reinsured by the U.S. Department of Education, and the SBR Loan Purchase Program (LPP), providing a secondary market and local servicing for UHEAA-guaranteed loans. At June 30, 1994, LPP's portfolio included 70,493 individual borrowers with outstanding loan balances totaling $316,335,989. During fiscal year 1994, UHEAA guaranteed its $1 billionth in student loans.

Utah Student Loan Programs

	1993-94	Cumulative Total incl. 1993-94
UHEAA guaranteed Federal Reinsured Student Loans	$170,134,229	$1,111,488,806
LPP **purchased** Guaranteed Student Loans	$84,119,891	$612,763,844
LPP **originated** Consolidation Loans	$13,916,312	$43,531,467

For more information on Student Financial Aid, see pages 3-5, 8 & 17 Tab F.

- The percentage of State General and Uniform School Funds allocated to Higher Education has declined. In 1986-87 Higher Educations distribution of State General and Uniform School Funds was 19.05% of the State Budget. In 1994-95 it is 17.31%.

For more information on General and Uniform School Fund percentage distribution, see page 10 of Tab G.

- The Tax Fund Appropriation per FTE has decreased over the last 16 years, after adjustments for inflation (constant dollars). The 1993-94 Appropriation per FTE is 18.5% lower than 1977-78.

For more information on the constant dollar expenditures of State Tax Funds, see page 33 of Tab H .

- The 1993-94 Appropriated Direct Costs per FTE Student were as follows:

Appropriated Direct Costs per FTE Student (Total all fields and disciplines)

	Voc Educ	Lower Div	Upper Div	Basic Grad	Advance Grad	Total All Levels
Costs per FTE Student	$3,141	$1,826	$4,563	$8,122	$16,680	$3,203
FTE Student/Faculty Ratio	15.6	25.0	14.7	10.5	5.6	18.1

For more information on Appropriated direct costs, see page 5 of Tab I.

- Following is a summary of the Education & General (E & G) line item salaried personnel FTE positions budgeted 1994-95 for the USHE.

Position	FTE	% of total
Regular Faculty	3,145.44	34.7%
Wage Rated Faculty	1,059.74	11.7%
Teaching Assistants	258.17	2.9%
Executive Staff	295.38	3.3%
Staff	4,287.19	47.4%
Total	**9,045.92**	**100.00%**

For more information on E & G salaried FTE positions, see page 2 of Tab J.

- Great effort is continually made to recruit and retain quality personnel. All USHE institutions, however, suffer significant compensation gaps when compared to their comparison institutions. The following table summarizes the percent differentials (As noted in the Data Book Tab K, community college gaps have been adjusted for faculty longevity):

	Faculty
University of Utah	-4.70%
Utah State University	-8.36%
Weber State University	-1.68%
Southern Utah University	-14.22%
Snow College*	-16.87%
Dixie College*	-22.04%
College of Eastern Utah*	-21.48%
Utah Valley State College*	-15.32%
Salt Lake Community College*	-21.19%

*All faculty

For more information on Compensation Gaps, see pages 39 through 43 of Tab K.

- The following table shows a comparison of Tax Funds Appropriations per FTE in 1987-88 and 1991-92 of USHE institutions as a percentage of the average tax fund appropriations of comparison institutions:

	1987-88	1991-92
University of Utah	82.02%	80.07%
Utah State University	84.29%	74.67%
Weber State University	79.32%	83.39%
Southern Utah University	78.28%	80.77%
Snow College	115.37%	82.41%
Dixie College	84.15%	77.95%
College of Eastern Utah	98.44%	91.86%
Utah Valley State College	61.65%	65.67%
Salt Lake Community College	75.78%	70.13%

For more information on Tax Fund Appropriation Comparisons, see pages 7 and 8 of Tab L.

- During the fiscal year 1994, USHE libraries had over 1.1 million circulation transactions. Expenditures for acquisitions of new materials at USHE libraries totaled $10,028,391 during the same period of time.

For more information on Libraries, see Tab M.

TAB B
DEGREES & AWARDS

The Degrees & Awards included in Tab B represent information from institutions traditionally listed in previous years. This includes all degrees and awards of the nine public institutions in the Utah System of Higher Education and for comparative information, degrees and awards of traditional non-public institutions: Brigham Young University, Westminster College, and Latter-Day Saints Business College. Not included are awards by other private/proprietary institutions and postsecondary awards by the applied technology centers.

Tables 1 through 8 include Public and Private Institutions

SUPPORT AND MONITORING OF USHE APPLIED TECHNOLOGY EDUCATION
1993-94 REPORT
by Max Lowe

HIGHLIGHTS

The year of 1993-94 proved to be another exciting year for Applied Technology Education in the Utah System of Higher Education. A few of the highlights that occurred during the year include:

- Enrollments in Applied Technology Education in the System of Higher Education continued to increase during the 1993-94, and into Fall Quarter of 1994-95. While Fall Quarter enrollments for the credit programs enjoyed a modest 2.5 percent growth in headcount and a 1.5 percent in FTE, the noncredit enrollments continued to grow at an expansive rate of 24.9 percent.

- The Legislative Strategic Planning Committee met and formed Task Force Number 4 which made several recommendations for the improvement of Applied Technology Education in Post-Secondary training, including the strengthening of the Liaison Committee (by adding one member from each Board) the development of a Working Advisory Committee to support the Liaison Committee, and the creation of temporary task forces to develop solutions for key areas of difficulty presently in the system such as tracking, common definitions, better funding mechanisms, marketing, etc.

- The Legislative Auditor General audited the Applied Technology Education system during this past year and the first phase of the audit is now out with recommendations centering around funding formulas, rewarding institutions for accomplishment of specific performance objectives, and the flowing of funds based upon comprehensive region plans.

- Higher Education instituted eight new Applied Technology programs during 1993-94 and discontinued one.

- Weber State University and the College of Eastern Utah were both accredited by the State Board for Vocational Education this past year.

- A separate Regents strategy and planning meeting was held to discuss specific ATE issues.

- House Bill 475, sponsored by Representative Protzman, passed, requiring coordination with other state and federal agencies in relationship to Work Force Training processes.

- 1993-94 saw the relationship between Applied Technology Education in Higher Education and Public Education progress from one of extreme caution to one of close coordination.

- The State Board for Applied Technology Education and the Board of Regents continued their joint venture to support Applied Technology Center

activities for the four service regions (Wasatch South, Mountainlands, Southeast and Southwest) where stand-alone ATCs do not exist.

ENROLLMENTS

Noncredit Enrollments

Noncredit training by Higher Education institutions is not a well-understood concept by much of the public and by many legislators. Consequently, higher education's effort to specifically meet business and industry needs through tailored, customized, noncredit training goes largely unnoticed. One of the major causes for this neglect is that noncredit training by and large does not generate FTE dollars for the system. Most of these monies come through a self-funded or company sponsored process, or through special appropriations such as Custom Fit and Short Term Intensive Training (STIT). Therefore, the emphasis in reporting training at Higher Education institutions focuses on the credit producing programs, which have a tendency to generate additional state resources.

As shown in Table I, the fact remains that last year alone customized noncredit offerings accounted for 44,084 enrollments. That reflects an increase of approximately 25 percent over the previous year. These noncredit enrollment areas include such programs as Custom Fit, STIT, Continuing Education, Skills Center, conferences and workshops, and other special licensing kinds of programs. They are tailored and customized to meet specific needs of the clientele, specifically, business and industry. All of these areas experienced growth over the past year.

Again this year, the trends seem to indicate greater expansion in the areas of noncredit training, those that are shorter and specifically tailored for job markets as opposed to the longer, more traditional credit kinds of programs. However, both areas did experience growth.

Attached as Appendix I is a listing of over 579 companies that either participated directly with customized, noncredit training, or hired recipients of that training. Much of this training is self-funded, paid for either by tuition or by the business or industry desiring the training.

Noncredit, customized training will continue to experience substantial growth in the future, particularly if job markets continue to grow, and/or significant need for retraining exists.

Table I

ANNUAL NONCREDIT ENROLLMENTS - HEADCOUNT							
Institution	1988-89	1989-90	1990-91	1991-92	1992-93	1993-94	Change

*Includes Skills Center

Credit Enrollments

While the enrollment increases in credit programs have not been as dramatic as the noncredit programs, the system has enjoyed seven straight years of growth. As shown in Tables II and III, this past fall quarter saw a 2.5 percent growth in headcount, and an overall 1.5 percent growth in FTE. Four of the eight institutions show substantial increases both in headcount and FTE. While these increases were substantial, particularly at UVSC and SLCC--the largest Applied Technology Education providers in the state, the system also suffered a decline in enrollments at three institutions: USU, Dixie, and WSU. Of the three, WSU is one whose numbers were significant enough to substantially lower the overall growth rate for the whole system. It is also significant to note that WSU's overall FTE and Headcount enrollment is down for the entire institution. However, 63 percent of the headcount loss and 85 percent of the total FTE losses can be directly traced to lower numbers in Applied Technology Education. With all the turmoil WSU has had to go through in order to adjust budgets for the lower than expected tuition revenue, it would appear that a major emphasis in the area of Applied Technology Education could pay big dividends in helping rectify the lower enrollments at WSU. In any event, the 19,900 headcount students for Fall Quarter 1993-94, combined with the 44,084 noncredit enrollments during 1993-94, reflect significant efforts by institutions of Higher Education to meet business and industry needs in training.

There are selected credit programs which have waiting lists. However, there continues to be openings in many ATE programs in the state. Eight new credit programs were added to the ATE offerings this past year, while one was deleted.

The system continues to be desirous of maximizing the utilization of physical facilities and instructional capabilities in Applied Technology Education. Major efforts need to be undertaken to help the public understand the job and career opportunities available in programs that require other-than-baccalaureate and graduate training.

MAINTENANCE OF EFFORT

In April of 1989, the Regents adopted a policy regarding support and maintenance of Applied Technology Education. The policy is an affirmation to the Legislature and the Applied Technology community of higher education's commitment to Applied Technology Education. The policy evolved through a series of discussions by the Commissioner and staff with the Funding Mechanism Task Force, Chief Academic Officers, Budget Officers, and the Council of Presidents.

The Regents have developed specific funding targets based on formulas to insure sufficient Applied Technology Education efforts. The funding targets are automatically adjusted each year as new monies are distributed. As shown in Table IV, for 1993-94 the system exceeded the targeted amounts by some $1,508,154, which indicates the major efforts the institutions are expending to improve Applied Technology Education in the state. Institutional reports also identified ways in which the institutions are promoting Applied Technology Education, whether funds were expended or not. These efforts are itemized in the next section.

Table IV

1993-94 MAINTENANCE OF EFFORT - TARGET AND ACTUAL EXPENDITURES

Additional Institutional Support for Applied Technology Education

Weber State University

1. A strong, growing partnership has been developed with the secondary school system and the Applied Technology Centers.

2. An integration of Tech-Prep training has occurred in the respective educational systems.

3. Over 2,600 students were enrolled in concurrent ATE courses with WSU during the last academic year.

4. WSU has completed an electronic linkage with the Ogden-Weber ATC which will allow them to share library resources as well as enrollment and transcript data. A similar link is being planned for the Davis ATC in the spring.

5. Five high schools, the ATC, and WSU will be linked through fiber-optics this coming spring. Weber is managing the School-to-Work Grant on behalf of the region.

Salt Lake Community College

1. The college is working to develop a Dental Hygienist Program, which was submitted to the Board of Regents in December 1994.

2. A faculty member from the School of Humanities and Science was sent to the School-to-Work Conference. The purpose of this conference was to infuse math studies into vocational programs.

3. Efforts are being made to convert all technical vocational curriculum to a competency based system.

4. The dollar amount of equipment funds allocated to Applied Technology Education equipment was doubled this year; an increase of $392,605.

5. Faculty were hired into new positions to support new and existing programs for Applied Technology Education.

6. Funding was distributed for two full-time Prison Lab Coordinators.

7. Both Applied Technology and growth dollars were used to assist in the development of "the Weekend College."

Utah Valley State College

1. An emphasis on Tech-Prep and School-to-Work has given students in the UVSC service delivery area new opportunities and has strengthened the programs at the college. UVSC is confident that these two programs will have a positive impact on ATE enrollments in the future.

2. Equipment has been added to several of the ATE programs making them more competitive and responsive to business.

3. Vocational programs, along with the college, went through a Northwest Accreditation visit.

4. An Advisory Center was established within the School of Trades and Technology to better serve ATE students.

5. Recruitment has been a priority during the year. Additional staff and resources were committed to provide information and advisement to prospective students.

6. The Apprenticeship Programs at UVSC have been strengthened and additional staff have been assigned to assist with the management of the program. The number of apprentices participating in the program have increased.

College of Eastern Utah

1. CEU has provided a customized series of vocational programs. They are providing counseling and advising to dislocated Sunnyside coal workers participating in the Training Readjustment Act. This service involves approximately 50 students.

2. The College has received a state grant for $34,390 and Carl Perkins Grants totaling approximately $160,000 to cover Turning Point, Tech-Prep, Homemakers Program, and Vocational Scholarships.

3. The college continues to support National Vocational Education Week activities.

4. There is continued support for participation in the Central Region Master Plan Coordinating Council.

5. CEU supports and participates in "Snowblast" recruiting activities and Junior High School Days.

6. CEU provides institutional support and financial backing for the BCTC Home Project and Scholarships.

Southern Utah University

1. SUU has moved the Automotive Program from an old out-dated building into a new facility housed in the Physical Plant.

2. SUU is offering an Outreach Program in Criminal Justice in St. George.

Dixie College

1. Dixie has upgraded several faculty computers to allow faculty access to Internet programs.

2. New computers were provided to the Aero and Business labs.

3. A new off-set printing press was acquired for the Graphics Art Program.

4. A laser printer was acquired for the Graphics Art Program.

5. Approximately $20,000 of Auto Mechanics Program equipment was purchased.

6. Equipment and tools for the Auto Body Program were provided.

Snow College

1. Snow continues its support for National Vocational Education Week activities.

2. The College continues support for participation in the Central Region Master Plan Coordinating Council.

3. There is institutional support and participation in "Snowblast" recruiting activities and Junior High School days.

4. Snow receives $134,069 in state and federal monies and grants.

5. Snow receives $12,685 in Vocational Scholarships.

GOALS 1994-95

1. Work with Public Education to develop common definitions for Applied Technology Education.

2. Review Maintenance of Effort definitions and targets.

3. Increase funding for the ATC service regions by more than the traditional $200 to $300 thousand.

4. Support legislation that will allow Job Service to collect enough information to provide an independent follow-up system of our graduates.

5. Continue the strengthening of the Liaison Committee and its task forces.

6. Begin the process for common data collection for all of ATE.

7. Support a system that will distribute costs for ATE in a equitable manner throughout Higher Education and ATCs.

In addition to the above listed goals, both the systems of Higher and Public Education support the goal of receiving adequate funding for noncredit training in the four service regions.

ATC Service Region

The ATC noncredit training provided by the four service regions, which include Wasatch Front South, Mountainlands, Southwest and Southeastern regions, was not included in the noncredit enrollment figures previously noted. These

programs are joint efforts by Public and Higher Education in the colleges and high schools, and receive separate funding packages to provide that training. The training is short-term, open entry/open exit, competency based, noncredit training. It has been equally funded over the last three years by Public and Higher Education. The amount of resources available to provide this training is woefully inadequate when one considers the amount of dollars flowing for Applied Technology type training in other regions of the state with stand-alone ATCs. This year witnessed a substantial growth in the contact hour production at the secondary level and, for the first time, adult participation was experienced in all of the regions with the exception of Wasatch Front South. Wasatch Front South, in this particular case, has a wide array of both credit and noncredit programs already available through the college and have concentrated their efforts to help support the development of this noncredit training for the secondary systems.

One of the dilemmas continues to be funding. Each year the Board of Regents and the State Board of Education have requested approximately $1 million each, but generally have been funded at less than one-third of the request. Consequently, there are severe strains that develop from time-to-time in the coordination and cooperation in some regions as they try to meet the training needs with inadequate resources. Again, this coming year Higher and Public Education will be pushing for approximately a $900,000 increase to help provide enough resources to permanently solidify these service regions and maximize the utilization of the facilities and capabilities of each distinct region. The Legislative Auditor General's first phase of the audit confirmed that the service regions are not receiving an equitable portion of the funding for ATC services, with the possible exception of the Southeastern region, and that discrepancy is primarily a factor centered around an economy of scale. The audit does recommend a more equitable funding process for the service regions than has been available in the past; and, while there are parts of the report which may be called into question, the conclusion that additional dollars need to be provided for these service regions certainly is one upon which both agencies could agree.

5. Approximately $20,000 of Auto Mechanics Program equipment was purchased.

6. Equipment and tools for the Auto Body Program were provided.

Snow College

1. Snow continues its support for National Vocational Education Week activities.

2. The College continues support for participation in the Central Region Master Plan Coordinating Council.

3. There is institutional support and participation in "Snowblast" recruiting activities and Junior High School days.

4. Snow receives $134,069 in state and federal monies and grants.

5. Snow receives $12,685 in Vocational Scholarships.

GOALS 1994-95

1. Work with Public Education to develop common definitions for Applied Technology Education.

2. Review Maintenance of Effort definitions and targets.

3. Increase funding for the ATC service regions by more than the traditional $200 to $300 thousand.

4. Support legislation that will allow Job Service to collect enough information to provide an independent follow-up system of our graduates.

5. Continue the strengthening of the Liaison Committee and its task forces.

6. Begin the process for common data collection for all of ATE.

7. Support a system that will distribute costs for ATE in a equitable manner throughout Higher Education and ATCs.

In addition to the above listed goals, both the systems of Higher and Public Education support the goal of receiving adequate funding for noncredit training in the four service regions.

ATC Service Region

The ATC noncredit training provided by the four service regions, which include Wasatch Front South, Mountainlands, Southwest and Southeastern regions, was not included in the noncredit enrollment figures previously noted. These

programs are joint efforts by Public and Higher Education in the colleges and high schools, and receive separate funding packages to provide that training. The training is short-term, open entry/open exit, competency based, noncredit training. It has been equally funded over the last three years by Public and Higher Education. The amount of resources available to provide this training is woefully inadequate when one considers the amount of dollars flowing for Applied Technology type training in other regions of the state with stand-alone ATCs. This year witnessed a substantial growth in the contact hour production at the secondary level and, for the first time, adult participation was experienced in all of the regions with the exception of Wasatch Front South. Wasatch Front South, in this particular case, has a wide array of both credit and noncredit programs already available through the college and have concentrated their efforts to help support the development of this noncredit training for the secondary systems.

One of the dilemmas continues to be funding. Each year the Board of Regents and the State Board of Education have requested approximately $1 million each, but generally have been funded at less than one-third of the request. Consequently, there are severe strains that develop from time-to-time in the coordination and cooperation in some regions as they try to meet the training needs with inadequate resources. Again, this coming year Higher and Public Education will be pushing for approximately a $900,000 increase to help provide enough resources to permanently solidify these service regions and maximize the utilization of the facilities and capabilities of each distinct region. The Legislative Auditor General's first phase of the audit confirmed that the service regions are not receiving an equitable portion of the funding for ATC services, with the possible exception of the Southeastern region, and that discrepancy is primarily a factor centered around an economy of scale. The audit does recommend a more equitable funding process for the service regions than has been available in the past; and, while there are parts of the report which may be called into question, the conclusion that additional dollars need to be provided for these service regions certainly is one upon which both agencies could agree.

CAMPUS-BASED & PROGRAM-BASED STUDENT FINANCIAL AID

INTRODUCTION

The following table provides statistical information concerning a number of federally-supported student financial aid programs. These five programs all are "campus-based," including the SSIG Program as operated in Utah. Annual state appropriations to the Board of Regents provide for a small part of the required matching funds for the FWS Program, and all required matching funds for the other four programs for USHE institutions. In addition to USHE institutions, Westminster College and several Applied Technology Centers participate in the SSIG Program.

Program	Description
Federal Perkins Loans	The Federal Perkins Loan Program is named in honor of Carl D. Perkins, the former chair of the U.S. House of Representatives Education and Labor Committee. Perkins Loans are low interest (5 percent) loans with a maximum 10 year repayment period. The Federal Perkins Loan Program is called a "campus-based" program since each institution is responsible for administering the program on its own campus. The matching requirement in this program is 15% of the capital contributions to the institutional loan fund in FY 1994, and increases to 25% in FY 1995.
Federal Work-Study (FWS)	The FWS Program provides jobs for undergraduate and graduate students who qualify for financial aid. Employers pay a portion of the student's wages while the FWS funds pay the remainder. FWS is also one of the campus-based programs with funding received directly from the U.S. Department of Education. Institutions are now required to provide an annual 25 percent match for the Federal Work-Study funds.
Federal Pell Grants	The Federal Pell Grant Program is the largest federal student financial aid grant program. Federal Pell Grants are need-based awards to undergraduate students. Funding for the Federal Pell Grant Program comes directly from the U.S. Department of Education to the individual campuses. The Pell Grant Program is provided to every eligible applicant. For the 1994-95 award year the minimum award is $400 and the maximum is $2,300.
Federal Supplemental Educational Opportunity Grants (FSEOG)	The FSEOG Program is a grant program for undergraduate students with exceptional need. Awards of up to $4,000 per year are available depending on the student's need. The FSEOG Program is also considered a campus-based program. Funding for the program is provided by the U.S. Department of Education. For FY 1994, the State matching requirement was increased from 15 to 25 percent.
State Student Incentive Grants (SSIG)	The SSIG Program is a grant program for undergraduate students with substantial financial need. Awards of up to $5,000 per year are available depending on the student's need and available funds. Funding for the program is provided partially by the U.S. Department of Education with a minimum of 50 percent state matching and maintenance of effort requirement of the designated state agency. The SSIG Program in Utah operates on a decentralized system with the individual institutions responsible for the administration of the program.

The Student Exchange Program administered through the Western Interstate Commission for Higher Education (WICHE) and the Regional Dental Education Program (RDEP) assist Utah students in obtaining training in dentistry, veterinary medicine, optometry and podiatry under the interstate compact. Participating students pay resident tuition and general fees of the receiving state or reduced tuition at private institutions. The chart above is a summary of Utah's participation in these programs.

The Paul Douglas Scholarship Program is a federally-funded program established to provide scholarships to encourage and enable outstanding high school graduates (who were in the top 10% of their graduating class) to pursue teaching careers. Students receiving this scholarship will be required to complete a teacher certification program and teach on a full time basis for a period of not less than two years for each year of scholarship funding received.

The Utah Career Teaching Scholarship (UCTS) Program is designed to encourage outstanding students to pursue careers as teachers. The program is open to students enrolled in a program of study leading to teacher certification in a state-supported college or university, Brigham Young University, or Westminster College. Up to 365 students are awarded tuition and general fee waivers. In addition, up to 20 UCTS recipients receive a Premier award of $1,000 per quarter/$1,500 per semester.

FEDERAL FAMILY EDUCATION LOAN PROGRAM

INTRODUCTION

The Federal Family Education Loan Program (FFELP) makes four types of long-term, low interest loans available for students and the parents of students enrolled in eligible postsecondary education institutions. The loan types, described below, are: Federal Stafford Loans, Federal Parental Loans for Undergraduate Students (PLUS), Federal Supplemental Loans for Students (SLS), and Federal Consolidation Loans. FFELP loans are made primarily by commercial lenders and are insured against loss by designated guarantee agencies and reinsured by the federal government.

The FFEL Program is the largest single source of student financial assistance in the nation. For the federal fiscal year 1993, national loan volume totaled $17.9 billion consisting of approximately 5.6 million loans. Since the inception of the program, more than $160 billion of guaranteed student and parent loans have been made.

UTAH HIGHER EDUCATION ASSISTANCE AUTHORITY

Utah Higher Education Assistance Authority (UHEAA) is the designated guarantee agency in Utah. The tables and graphs on the following pages describe the loan volume and related statistics for loans guaranteed by UHEAA.

BASIC PROGRAM PROVISIONS

A summary of the basic provisions for each of the FFELP loan programs is provided below:

Program — **Description**

Federal Stafford Loans

The Federal Stafford Loan Program, named in honor of former Senator Robert Stafford, provides both subsidized and unsubsidized loans according to an individual student's financial need. For subsidized Stafford Loan borrowers who demonstrate financial need, the federal government subsidizes (pays) the interest accruing while the student remains in school and during a six month "grace" period. A student who does not qualify for the maximum amount through a subsidized loan may obtain the additional funding within the authorized loan limit through an unsubsidized Stafford Loan. Interest on unsubsidized Stafford Loans during school and grace periods may either be paid as accrued or capitalized and added to the loan principle, at the borrower's option. Eligible students may borrow up to the following loan amounts per year:

	Subsidized	Unsubsidized
First-Year Undergraduates	$2,625	$4,000
Second-Year Undergraduates	$3,500	$4,000
Third-Year & Remaining Undergraduates	$5,500	$5,000
Graduate Students	$8,500	$10,000

* The cumulative loan limit for independent undergraduate study is $46,000. The cumulative loan limit for undergraduate and graduate study combined is $138,500.

The current interest rate on Federal Stafford Loans is a variable rate based at 3.1% above the 91-day Treasury Bill and is adjusted annually. The Federal Stafford Loan interest rate is 7.43 percent through June 30, 1995. The maximum repayment period, which begins six months after the student is no longer attending school on at least a half-time basis, is 10 years.

Program	Description
Federal PLUS Loans	Federal PLUS Loans are available to the parents of dependent undergraduate students. A parent can borrow up to the dependent student's cost of attendance (depending on other student aid received) each academic year. Interest on Federal PLUS Loans is at a variable rate based on the 52-week Treasury Bill. The current Federal PLUS interest rate is 8.38 percent through June 30, 1995. Repayment on Federal PLUS Loans begins when the loan is made and extends over a maximum 10-year period.
Federal SLS Loans	Federal SLS Loans were available to independent undergraduate students, graduate students and, in some cases, dependent students through June 30, 1994. Beginning July 1, 1994 the SLS Loan Program was combined with the unsubsidized Stafford Loan Program.
Federal Consolidation Loans	The Federal Consolidation Loan Program allows borrowers to combine eligible types of outstanding student loan debt into a single consolidation loan. Federal Consolidation Loans are made at a fixed interest rate based on the rates of the loans consolidated, and may have a maximum repayment period of up to 30 years.

COHORT DEFAULT RATES

In June, 1989, the U.S. Department of Education (ED) implemented a default reduction initiative to combat defaults in the FFEL Program. Under ED's default reduction plan, a "cohort" default rate is calculated and published for each participating school. Schools with default rates above specified percentages are subject to various sanctions or limitations. ED also began to publish informational cohort default rates for guaranty agencies and lenders, beginning with federal fiscal year 1991.

Table 11 provides information regarding cohort default rates for Utah education institutions for four years. The cohort default rate is determined by selecting a group of borrowers who entered repayment in the same year and by tracking this "cohort" group over a specified interval of time to determine the percentage of such borrowers who default. The formula for determining the fiscal 1992 cohort default rates is as follows:

$$\frac{\text{\# of Borrowers who Defaulted in Fiscal Year 1992 or 1993 (October 1, 1991 through September 30, 1993)}}{\text{\# of Borrowers who Entered Repayment in Fiscal Year 1992 (October 1, 1991 through September 30, 1992)}}$$

The cohort default rates are calculated from data supplied by guaranty agencies through an annual "tape dump" process directed by ED. Only Federal Stafford and SLS Program Loans which qualify for federal reinsurance are included in the cohort default rate calculations. The formula described above is used to determine cohort default rates for schools with 30 or more borrowers entering repayment in fiscal 1992. For schools with fewer than 30 borrowers entering repayment in fiscal 1992, the cohort default rate is the average of the rates calculated for the three most recent fiscal years. Schools which have operated less than three years are considered too new for a meaningful rate to be calculated.

For 1992, UHEAA's cohort default rate (covering experience for all participating schools and lenders) was 7.8%, which ranked 12th lowest nationally. The national average for all programs was 15.1%, which was 2.4 percentage points below the previous year, a 14 percent reduction reflecting some impact from nationwide default reduction efforts. The favorable Utah performance on this measure is in part attributable to a relatively high percentage of loans to students attending four-year institutions.

UTAH STATE BOARD OF REGENTS
LOAN PURCHASE PROGRAM

The Student Loan Purchase Program was formed in 1977 for the purpose of making loans to, and purchasing the loans of, qualified students attending eligible institutions of higher education. The Program, which began operations in January 1979, provides a secondary market for student loans which are guaranteed by the Utah Higher Education Assistance Authority (UHEAA) and originated by Utah lenders.

At the present time, 18 Utah lenders are originating student loans guaranteed by UHEAA. Of these 18 lenders, 17 of them also participate in the Board's secondary market activities and generally speaking sell their loans to the Loan Purchase Program at or prior to the time the borrower leaves school and begins repayment.

In October 1987, the Loan Purchase Program also began originating consolidation loans which provides a borrower with the opportunity to combine eligible types of outstanding student loan debts into one, new consolidation loan. Through a consolidation loan, a borrower is able to make a single monthly payment and can generally lower the amount of the monthly payment over the extended repayment period.

Following is a table of student loans purchased and originated by the Loan Purchase Program since inception:

Year Ending June 30	Loans Purchased	Consolidation Loans Originated
1979	$ 21,320,674	
1980	25,048,084	
1981	3,984,461	
1982	21,366,185	
1983	48,340,963	
1984	40,475,239	
1985	18,773,146	
1986	32,062,783	
1987	29,581,200	
1988	30,241,627	$ 2,671,635
1989	35,549,411	3,956,955
1990	38,570,030	4,776,965
1991	54,916,532	5,226,086
1992	54,168,658	7,012,094
1993	74,244,960	5,971,420
1994	84,119,891	13,916,312
TOTAL	$612,763,844	$43,531,467

At June 30, 1994, the Loan Purchase Program's portfolio of student loans consisted of 66,373 borrowers with an aggregate outstanding balance totaling $316,335,989. The student loan portfolio is financed through tax exempt student loan revenue bonds issued by the Board of Regents. At June 30, 1994, there were $410,970,000 of bonds outstanding. These bonds are secured by the assets of the Program and are not liabilities of the State of Utah.

HISTORICAL INFORMATION ON USHE APPROPRIATED BUDGETS

Background

The analysis presented in the following graphs and tables has been prepared to provide a neutral analysis of recent budget history for the USHE and for each individual institution. This is one of three basic data sets developed to provide a balanced basis for analysis of the relative funding needs of USHE institutions. The other two data sets are the USHE Cost Study (Tab I) and Comparison Institutions Financial Information (Tab L).

Explanation of Attachments

Figures 1 through 6 show, for both 16-year cumulative and 1-year recent time periods, the relationships between enrollment change and changes in constant dollar expenditures, state tax funds, and tuition and fees revenues per FTE student, for each institution and total USHE. The graphs support the observation that both expenditures per FTE and tax funds per FTE tended to be negatively associated with enrollment growth over the 16-year period. In other words, funding generally did not follow enrollment growth to an adequate degree. Looking at Figure 5, however, there is no discernable long-term relationship between enrollment growth and tuition and fee revenues per FTE student.

Figures 7 through 26 show changes in constant dollar expenditures, state tax funds, and tuition and fees per FTE student, for all instructional line items excluding School of Medicine at the University of Utah and Skills Center at Salt Lake Community College. Figures are provided for the USHE and each institution. Figures 7 and 8 indicate the following patterns. The high point in purchasing power per student for total USHE was in 1978-79. This high point followed several years of state revenue growth during which time executive and legislative policy supported improving the resources available to provide a high quality system of higher education. Between 1979-80 and 1982-83, USHE absorbed significant enrollment increases without needed increases in funding to support the added students. This was compounded by high inflation during that period, including double digit CPI increases in 1979-80 and 1980-81.

After 1982-83, the Board instituted annual funded enrollment targets to prevent further erosion in the resource support to maintain acceptable quality for students enrolled. In 1984-85 and 1985-86 some gains were achieved. However, limited state revenues, and aggressive institutional enrollment policies have caused deterioration since 1985-86. Tuition revenues per FTE are at a record high, although generally not high when compared to national averages and peer institutions, except in some of the two-year colleges.

Table 1 provides basic data on the net changes for the 16-year period, for each institution and total USHE. Finally, source data are arrayed in the appendix for those who may wish to understand the calculations behind the trends summarized in the graphs and Table 1.

TAB I
COST STUDY

Introduction to the USHE Cost Study 1

History of Key Elements of the Cost Study 1987-88 to 1993-94 2

1993-94 Appropriated Direct Instructional Expenditures per FTE by Institution, Discipline and Instructional Level 3

1993-94 USHE Full Cost Study 5

UTAH SYSTEM OF HIGHER EDUCATION - COST STUDY

The USHE cost study provides information by major program on direct and calculated indirect instructional costs for each institution and for the total system.

Direct and indirect costs of instruction in courses creditable for degrees or other formal awards are broken down between Vocational Education, Lower Division, Upper Division, Basic Graduate, and Advanced Graduate courses, and the following figures are provided for each institutional category: (1) Total Appropriated Instructional Expenditures; (2) Calculated Estimated Full Cost of Instruction; (3) Annualized number of Academic Year Equivalent FTE Students; (4) Calculated Appropriated FTE Student/Faculty Ratio (students per faculty FTE); (5) Appropriated Direct Cost per FTE Student; and (6) Calculated Full Cost of Instruction per FTE Student.

Appropriated direct costs of instruction include applicable expenditures from Education and General line items plus other line items that support instruction.

A seven-year history of key elements of the cost study and five summary tables from the 1993-94 cost study are provided in pages 2 through 7, followed by institutional schedules showing greater detail on the calculations. Schedule A for total USHE and for each institution provides information on the indirect cost allocations by major program, and Schedule B provides both dollar amounts and amounts per FTE student for the both full (all funds) and direct costs of instruction.

In looking at the cost information for different institutions, the reader should keep in mind the factors that influence costs, particularly direct and indirect costs of instruction. These include level of instruction (advanced courses typically are more expensive), subject matter mix (Natural Sciences, Engineering, Fine Arts, Health Professions typically are more expensive), institutional size, and amount of physical plant in relation to enrollment size.

It is not invalid to compare USHE instructional costs desegregated by level and subject matter cluster. Such additional information is available upon request. But this information should not be the exclusive basis for judging relative adequacy of institutional budgets. Equally appropriate and useful are comparisons of Utah institutions with external comparison groups having similar missions, as provided under Tab L of this Data Book.

Readers who would like additional information on the cost study methodology or have questions about the data should contact the Associate Commissioner for Budget and Finance.

COMPARATIVE RECENT HISTORY OF FACULTY SALARIES AND COMPENSATION IN UTAH PUBLIC HIGHER EDUCATION

Background

The analysis presented in the following graphs and tables outlines recent historical relationships between faculty salary and compensation data at USHE institutions and at comparable institutions. The purpose of this analysis is to provide a historical context and a wider breadth of comparison for faculty salary and compensation data.

Explanation of Attachments

A ten-year history of average faculty salary and compensation data for each USHE institution and for its corresponding group is included in Tables 1 and 2. These data are adjusted to reflect constant 1994 dollars in Tables 3 and 4.

The University of Utah and Utah State University are compared to three groups:

- Comparison (Peer) Institutions
- All Research 1 Institutions (U of U's classification)
- A composite of Research 1 and 2 Institutions

Weber State University and Southern Utah University are also compared to three groups:

- Comparison (Peer) Institutions
- All Comprehensive 1 Institutions (WSU's and SUU's current classification)
- A composite of Comprehensive 1 and 2 Institutions

The five community colleges are compared to two groups:

- Comparison (Peer) Institutions
- Institutions Without Academic Ranks (almost all of which are community colleges)

Figures 1 through 18 exhibit compensation data for each USHE institution. The top graph on each page compares the USHE institution to the above-mentioned groups on a current dollar basis. The bottom graph shows the compensation data adjusted to constant dollar levels.

Trend Analysis

Trends in compensation increases, as shown on the graphs, indicate that USHE institutions have not kept pace with similar groups of schools. The constant dollar graphs show that some institutions have fared better than others with regard to inflation but most have lost ground. Some schools have gained ground in recent years primarily because of internal reallocation to faculty compensation and most recently because of budget constraints in other states.

1993-94 USHE ANALYSIS OF FACULTY SALARY AND COMPENSATION COMPARABILITY

Methodology

Each year the Office of the Commissioner prepares an analysis that compares faculty salaries and compensation at USHE institutions to faculty data at comparison institutions. The report helps determine recommendations made by the Commissioner, in consultation with USHE Presidents, for equity adjustments. The primary source of information used in the analysis is "The Annual Report on the Economic Status of the Profession 1993-94," published by the American Association of University Professors (AAUP) in Academe, March-April 1994.

The data are analyzed by individual faculty rank for the four-year institutions and by all faculty combined for the two-year institutions. The four-year institutions are analyzed in this manner because each institution has a unique distribution of faculty members across ranks and distribution among ranks is also indicative of longevity. Use of all-rank averages in determining equity comparisons for a specific college or university would distort the comparison. Averages are used initially for two-year institutions, however, because comparable data by rank are not available at all of these institutions. To compensate for this lack of data, the Commissioner's office conducted a longevity study in 1993 for Utah's colleges and their comparison institutions. The results are listed below:

Table I: Average Years of Service for Full-Time Instructional Faculty

Institution	Avg Years Of Service	Diff from Comp Avg
Anne Arundel Community College	14.00	
Chemeketa Community College	N/A	
Danville Community College	16.60	
Grand Rapids Junior College	20.00	
Joliet Junior College	13.04	
North Idaho College	11.40	
Onondaga Community College	15.00	
Spokane Community College	13.30	
Western Wyoming Community College	8.16	
Yavapai College	10.10	
Comparison Group Average	13.51	
Snow College	8.85	-4.66
Dixie College	13.10	-0.41
College of Eastern Utah	8.00	-5.51
Utah Valley State College	8.32	-5.19
Salt Lake Community College	7.20	-6.31

This data shows that the average years of service figure for all of Utah's colleges is below that of the comparison group average. This is most likely due to the enrollment growth experienced by Utah institutions and the new faculty members hired to instruct the large numbers of new students.

In order to address the differential in longevity, the following rationale was devised. Analyzing faculty salary increases for the past eight years at the comparison institutions revealed that increases grew one percent above inflation at these institutions. If the faculty pool had remained constant at Utah's colleges, average faculty salaries would likely have been higher by the estimated one percent for each year of difference in average years of service at the comparison institutions. Therefore, for each year of differential, one percentage point is subtracted from the gap computed from the AAUP information.

Findings

Table II displays Utah's actual salary and compensation standing in relation to comparison institutions. Represented in Table II is a six-year history of percentage gaps in total compensation.

Table II
USHE Compensation Gaps By Year

Inst.	1988-89 Comp Gap	1989-90 Comp Gap	1990-91 Comp Gap	1991-92 Comp Gap	1992-93 Comp Gap	1993-94 Comp Gap

1993-94 USHE ANALYSIS OF NON-EXEMPT STAFF SALARY AND COMPENSATION COMPARABILITY

Methodology

This report constitutes the annual update of the Non-Exempt Staff Salary Survey. It compares salary and compensation levels of non-exempt staff at Utah institutions to salary and compensation levels of non-exempt staff in local and statewide area markets.

Salary data from USHE institutions are obtained yearly. Marketplace data are also gathered yearly for northern Utah by USU, for the greater Ogden area by WSU, for the greater Salt Lake area by the U of U and SLCC, and for Utah County by UVSC. Every three years all local marketplaces for the nine institutions are surveyed. Survey responses are entered into Salary Survey Expert software by the institutions and forwarded to the Commissioner's office for consolidation and analysis.

Because this is an interim year, salary data were gathered for Logan, Ogden, Salt Lake City and Provo. This information is compiled for a statewide database to which all USHE institutions are compared.

Due to low response rates in the Salt Lake market, the Radford Salt Lake City salary survey has been incorporated into this survey. Radford is able to obtain salary and benefits information from many of the large employers in the area. The U of U and SLCC have surveyed Salt Lake businesses that do not participate in the Radford survey.

In addition to salary data, this analysis provides benefits information; but rather than gather benefits figures yearly and impose a substantial extra burden on respondents, the data is gathered once every three years. The relationship between benefits and salaries for institutions is estimated in interim years. Benefits data was last collected in 1991-92. Therefore, those figures are used to estimate benefits and total compensation for the current year. Salary-related benefits are linked directly to actual average salary for a given year while other non salary-related benefits are held constant.

Findings

Comparisons from 1986-87 through 1993-94 by institution are summarized in Table 1 and Figures 1 through 9. Using percentages, these exhibits show salary, benefits and total compensation comparisons for each institution as compared to its relative marketplace. These differentials are summarized on the following page:

1993-94 NON-EXEMPT STAFF SALARY SURVEY SALARY AND COMPENSATION DIFFERENTIALS		
Institution	Salary	Compensation
University of Utah	-21.93%	- 9.40%
Utah State University	-24.22%	- 6.79%
Weber State University	-28.33%	-11.81%
Southern Utah University	-32.70%	-13.65%
Snow College	-15.01%	0.45%
Dixie College	-18.18%	- 2.17%
College of Eastern Utah	-13.59%	- 0.22%
Utah Valley State College	-17.30%	2.25%
Salt Lake Community College	-15.10%	0.05%

The average salary gaps range from -32.70 percent at SUU to -13.59 percent at CEU. After considering the impact of fringe benefits on total compensation, the gaps range from -13.65 percent at SUU to 2.25 percent at UVSC.

Salary increases provided by the legislature and internal reallocations by institutions serve to decrease gaps to some extent. The percentage salary increases for 1993-94 are listed below:

1993-94 NON-EXEMPT STAFF PERCENTAGE SALARY INCREASES	
University of Utah	3.6%
Utah State University	4.7%
Weber State University	3.6%
Southern Utah University	4.8%
Snow College	4.2%
Dixie College	3.1%
College of Eastern Utah	5.9%
Utah Valley State College	4.5%
Salt Lake Community College	4.9%

COMPARISON GROUP FINANCIAL COMPARISONS

Background

The Commissioner's Office develops annual analyses of faculty compensation and of tuition and fees for USHE institutions compared to selected sets of comparison institutions. The comparison institution sets were updated in 1990 to correct for changes in the status of some of the institutions on previous comparison lists. In every case, the result of the changes was a closer correlation for faculty salaries and total compensation between USHE institutions and their comparison groups. In the above-mentioned analyses, four sets of comparison institutions are used: one each for the University of Utah and Utah State University, a single set for both Weber State University and Southern Utah University and one set for all five colleges.

The following analysis uses these same comparison groups in evaluating revenues and expenditures per FTE students at each USHE institution. The data for Fiscal Years 1988 through 1992 are obtained from the U.S. Department of Education, Center for Education Statistics. Comparisons based on the national database are edited and processed by the National Center for Higher Education Management Systems (NCHEMS).

Description of Data Presented

Figures 1 through 5 provide individual Financial Indicators Profiles for the latest available year for each USHE institution, comparing the Utah institution to the appropriate comparison group on eleven of the most relevant indicators. The first three indicators are key revenue relationships and the remaining eight are key expenditure relationships. These eleven indicators and additional indicators are presented in greater detail in the tables following the figures. Institutions are listed in each table from high to low according to the most recent year.

Findings

University of Utah: Below average appropriations and tuition/fees. Above average performance in obtaining government grant and contract funding. Below average expenditures across the board, especially in instruction and in scholarships/fellowships.

Utah State University: Below average appropriations and tuition/fees, but substantially above average performance in obtaining grant and contract funds. Below average expenditures in instruction, academic support, student services and operation and maintenance. Above average expenditures in research, scholarship and fellowship and institutional support.

Weber State University & Southern Utah University: Below average tax appropriations and tuition and fees. Below average instructional expenditures.

Colleges: Below average tax appropriations at all colleges. Below average tuition/fees at Snow and CEU and above average at Dixie, UVSC and SLCC. Above average performance in obtaining grants and contracts. Below average instruction expenditures at all colleges.
