Senate Bill 102 Formula (Policy R742)

- Senate Bill 102 creates a new process for funding USHE capital facilities projects through a formula comprised of six statutory factors.
- The bill requires the creation of a policy to measure each USHE institution's fulfillment of the six factors and the relative weight assigned to each factor.
- The Board reviewed initial measures and weights in March 2019 and the Capital Facilities Subcommittee met in April and July to review and finalize the policy:
