USHE Credit Transfer and Articulation Verification Project

The Utah System of Higher Education Board of Regents has made it a priority to assist students in completing degrees and certificates quickly and affordably by ensuring that academic credits they earn will transfer as seamlessly as possible between USHE institutions. The Board has required specific strategies to ensure quality, efficiency, and transferability of degree pathways, including a new Regents Transfer Council and an upgraded USHE Transfer Guide. This Credit Transfer and Articulation Verification Project will coordinate efforts to map out credit transfer articulations within the top 50 majors across the system—the majors that enroll the majority of USHE students.

Commissioner Woolstenhulme has worked with institutional presidents to divide the project, and each bachelor degree-granting institution will take the lead mapping out the articulations for specific clusters of majors. Institutional staff will complete data matrices to provide updated information on their major programs. USHE staff will cross-check matrices and work with registrars and other institutional staff to validate that the articulations are correct and to identify problems. The project will provide better quality data for the USHE Transfer Guide that will help students navigate their transfer options. Data will also provide a more accurate, data-informed idea of where transfer is not working within majors and those areas can be addressed during regular meetings of the Majors Committees when appropriate. The project will be completed in December 2019.
