UTAH SYSTEM OF HIGHER EDUCATION

Learn & Work In Utah

The Utah Legislature, with federal CARES Act funding, created the new Learn & Work In Utah initiative. This $9 million initiative provides training for workers displaced due to COVID-19 by funding the Governor's Office of Economic Development's Utah Works program within Talent Ready Utah and the Utah System of Higher Education's Custom Fit program to provide education and training to displaced workers. USHE, in collaboration with Talent Ready Utah, designed an application, open to all higher education institutions in the State of Utah, to submit proposals for new and expanded programming designed to support unemployed, underemployed, and vulnerable workers. The application closed on July 23rd and received 188 program proposals, totaling over $15 million in requested funds. Review teams from Talent Ready Utah and USHE reviewed applications and, within one week of the submissions, awarded the first $8.7 million in program support to our institutions. Additionally, the committee identified another $4.5 million in programming, which could potentially be supported through additional CARES funding allocated by the Legislature during the August 2020 special session. The funding was awarded to the following institutions:
