University of Utah – Revenue Bond Authorization

Board Policy R590, Issuance of Revenue Bonds for Colleges and Universities, requires the Board to review and approve the issuance and sale of revenue bonds. The University of Utah requests Board authorization to issue revenue bonds for the purposes described in the following sections.

Request to Issue up to $237,500,000 Authorized by State Legislature
The University of Utah requests Board authorization to issue General Revenue Bonds for the following purposes that have been authorized by the state legislature:

- $100,000,000 for the construction of the Health Sciences Campus Office Building as approved by the Board in November 2019 and authorized by the 2020 Legislative Session (H.B. 9); clinical and other institutional non-state revenues will be the primary source of repayment for the bonds.

- $137,500,000 for the construction of the Medical Education and Discovery Complex (MEDX) as approved by the Board in November 2016 and authorized by the 2017 Legislative Session (S.B. 9). $52,500,000 of the original $190,000,000 authorization was issued in Series 2017A for a rehabilitation hospital. The remaining $137,500,000 is authorized for the MEDX complex where donations will be the primary source of repayment for the bonds.

Request to Issue up to $10,000,000 of Utah Industrial Facilities Bonds
Pursuant to Utah Code 11-17 and Board Policy R590, Issuance of Bonds for Colleges and Universities, the University of Utah does not need legislative approval for Utah Industrial Facilities and Development (IFD) bond issuances under $10 million per calendar year. These bonds encourage economic growth in the state through the development and improvement of research facilities. The university requests authorization to issue up to $10,000,000 for various research projects listed in the supplemental material attached.

Request to Refinance up to $60,000,000 for Short-term Cash-Flow
Board Policy R590 allows institutions to request authorization to issue revenue refunding bonds without legislative approval. Typically, the Board issues refunding bonds to provide net cost savings to the institution by replacing existing bonds with a new issuance at lower interest rates. In this case, the university requests the ability to re-amortize up to $60,000,000 of existing debt in order to free up cash for short-term needs and to replenish shortfalls caused by the pandemic. Such a transaction is permissible under statute and Board policy; however, this is a new development and a new direction that the Board
should consider and discuss prior to approval. Additional details on the costs and financing of this proposed transaction are included in the attached supplemental material.

Prior Authorization to Refinance up to $100,000,000 for Economic Savings
In the November 2019 meeting, the Board approved the University of Utah to refund up to $100,000,000 prior to May 15, 2021, if economic conditions present opportunities for cost savings. The University has not yet issued bonds under this authorization, but may include some refunding bonds in the current transaction if market conditions allow for cost savings of at least three percent.

The relevant parameters of the requested issue are:

- Principal amount not to exceed $375,000,000 (including costs of issuance and capitalized interest)
- Interest rate not to exceed 5%
- Discount from par not to exceed 2%
- Final maturity not to exceed 30 years from the date of issue

A copy of the request letter from the university, supplemental information relating to the IFD and short-term cash flow bonds, the Approving Resolution, and a financing summary from the financial advisor are attached. Representatives from the university will attend the meeting to provide additional information and answer questions from the Board.

Commissioner’s Recommendation
The Commissioner recommends approval of the proposed Authorizing Resolution to issue General Revenue Bonds for the University of Utah as proposed. The Commissioner further recommends examination and discussion of the request to refund existing bonds for short-term cash-flow in terms of precedent and the current economic environment.

Commissioner, Utah System of Higher Education  
Board of Regents Building  
The Gateway

Salt Lake City, UT 84101-1284

Dear Commissioner Woolstenhulme:

The purpose of this letter is to inform you of the University of Utah’s plans to submit a bond parameters resolution (the “Resolution”) to the State Board of Higher Education of the State of Utah (the “Board”), to be considered during its December 2020 meeting, for the issuance of a General Revenue Bond or Bonds on behalf of the University of Utah (the “University”) for the purpose of and (i) financing a portion of the costs to construct (a) a health science office building (the “Health Science Office Building Project” or “HELIX Project”), (b) the Medical Education and Discovery Building (MEDX) to replace the existing Medical School complex (the “MEDX Project”), and (c) various research projects as permitted by the Utah Industrial Facilities and Development Act (collectively, the “Research Project,” and together with the Health Science Office Building Project and the MEDX Project, the “Series 2021 Projects”) together with other amounts necessary to pay costs of issuance, pay capitalized interest and fund any debt service reserve requirements. (ii) refunding all or any portion of the outstanding bonds issued by the Board on behalf of the University (the “Re-Amortization Refunding Authorization”) together with other amounts necessary to pay costs of issuance and fund any debt service reserve requirements.

Details are as follows:

**Authorization to Bond up to $100,000,000 for the Construction of the Health Sciences Campus Office Building**

The HELIX Project is to provide space for the relocation of certain offices that are in a building that will be demolished in the future to accommodate School of Medicine on-campus growth needs. The project includes the design and construction of a five-story, 250,000 sq. ft. office building and construction of a dedicated elevator and bridge connecting the new office building to an existing bridge that connects to the Health Sciences Campus. The project is expected to cost $105.1 million. Funding will come from $100 million of bond proceeds plus monies of the University. No state funds will be requested for the new facility.

The University received bonding authorization for this project during the 2020 Legislative Session of up to $100 million, together with other amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements.

**Authorization to Bond up to $137,500,000 for the Construction of Medical Education and Discovery Complex**

The Medical Education and Discovery Complex (“MEDX”) is a 350,000 square-foot building that will replace the University’s existing Medical School Complex. It will house the new medical school, the Global Health Institute and collaborative space for clinicians, researchers and students. The University estimates the cost of building the MEDX at $185 million. Funding will come through appropriation from the State Legislature, long-term private donations and $137.5 million from bond proceeds.

The University received bonding authorization for both the MEDX project and its Rehabilitation Hospital during the 2017 Legislative Session to finance up to $190 million for costs of constructing these two projects, together with other
amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements. During 2017, the University bonded for $52.5 million of the $190 million authorization to finance a portion of the costs of constructing the Rehabilitation Hospital. The University is now requesting to bond for up to $137.5 million of the remaining bonding authorization, for construction of the MEDX, together with other amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements.

**Authorization to Bond up to $10,000,000 for the Construction of various research projects permitted under the Utah Industrial Facilities and Development Act.** The Board is empowered to issue up to $10,000,000 of bonds in any one fiscal year to finance the acquisition, construction, improvement, equipping and furnishing of buildings and projects on behalf of the University and desires to finance various research projects as permitted by the Act together with other amounts necessary to pay costs of issuance, pay capitalized interest and fund any debt service reserve requirements. In no case shall the total par amount of this bond exceed $10,000,000.

**Authorization to Bond up to $60,000,000 for the refunding of outstanding debt to re-amortize the principal of such outstanding bonds for cash-flow relief.** The University is looking to provide cash flow relief due to pandemic-related shortfalls by re-amortizing the principal of certain outstanding bonds for short-term cash-flow relief (without any requirement of net present value savings) and pay costs of issuance related thereto. Such bonds may be issued in one or more series and combined with any other series of general revenue bonds. This capacity is possible due to the historical debt management by the Board and the University with shorter maturities in its bond issuances to reduce interest costs. Any re-amortization is expected to be favorably accepted by the market and rating agencies because of the relationship between the new amortization and the useful life of the projects originally financed, and the universal understanding of the pandemic on higher education budgets.

The University received previous authorization in a resolution adopted by the board dated November 15, 2019 to refund up to $100,000,000 for all or any portion of the outstanding bonds issued by the Board on behalf of the University prior to May 15, 2021, pursuant to certain parameters therein (including net present value savings of at least three percent) and such bonds may be issued in one or more series and combined with any other series of general revenue bonds. The University is analyzing such opportunities and may include such refundings in the upcoming bonding should favorable conditions appear.

It is the University’s current plan to issue the first series of bonds related to the Resolution in January and close the transaction in early February. The University is currently in the process of determining which projects are expected to be included in the bonding in early 2021.

Please feel free to call me should you or others have questions about the details of this funding request.

Sincerely,

Cathy Anderson  
Chief Financial Officer
