Performance Funding Revisions in S.B. 193

As discussed in the January committee meeting, the Commissioner’s office worked with the Legislature to amend the current performance funding model to align with the Board’s work on the statewide attainment goals of 1. Access, 2. Timely Completion, and 3. High-Yield Awards. The legislation making these changes (S.B. 193) passed during the 2021 General Session and replaced the 1% performance progress in the current model with 5-year and annual institutional goals set by the Board. The Board will now have greater flexibility to work with institutions and their boards of trustees to set and achieve meaningful goals for which the Legislature will award performance funding. The bill provides a two-year implementation phase in which the current model will be used to allocate performance funds, and the Board will review and submit proposed goals for the new model to the Legislature for review. The attached diagram provides more information on the enacted changes to the performance funding model, and a copy of the legislation is also attached.
