Revision to Policy R567, *Internal Audit Program*

Degree-granting institution internal auditors regularly identify information systems risks among their institutions. Though information systems risks remain prevalent at each degree-granting institution, the institutions do not always evaluate these risks through internal audits.

The proposed revisions to [Board Policy R567, Internal Audit Program](#), would require degree-granting institution internal auditors to “conduct regular information systems audits to ensure adequate controls exist to promote the integrity of data security, access, and governance.” Beginning in fiscal year 2022, the Commissioner’s office will employ a shared information systems auditor to assist institution internal audit offices that do not have adequate resources to conduct information systems audits.

**Commissioner’s Recommendation**

The Commissioner recommends the Board adopt the proposed changes to Policy R567, *Internal Audit Program*, effective immediately.
