Board of Trustees Report

Board of Trustees Chair McKay Jensen provided a report from the Mountainland Technical College Board of Trustees to the Board. He reviewed the MTech strategic plan priorities and the five pillars they address: student safety and achievement, program development, faculty and staff support, physical resources, and community outreach.
President’s Report

President Christensen presented the State of the College to the Board members and reviewed MTech’s strategic plan pillars. Within community outreach, they are working hard to ensure they can reduce barriers for all students. President Christensen is proud of their unprecedented partnerships, including the K-16 Alliance. The relationship with UVU President Tuminez is phenomenal. They have been working extensively with school districts within the K-12 to MTech Pathway Agreements. They have 22 MTech programs in place that students can earn a variety of UVU credits. Board member Hall asked what keeps the president awake at night and what the Board could do to help. President Christensen responded that student safety and waiting lists for programs are concerning. He would appreciate facility support. He also mentioned they try to put every dollar they receive into labs, classrooms, and students, but they need to find a better balance. Board member Hall recognized MTech’s remarkable content and information and asked how we could become innovative and commercialize it. He noted President Christensen has the brainpower to do it. He needs the time to think about it. Board member Church mentioned the system could support the president’s safety concerns through resources under shared services. Chair Simmons acknowledged that many tech students work with heavy equipment and asked if the system office tracks safety incidents when students are injured. It was noted that the institutions keep a record, but it is not shared with the Office of the Commissioner, but that should be considered. The Commissioner mentioned the state legislature under the speaker has asked for an audit focused on duplication. This audit will be released in fall 2022. Board member Angus asked about the investment of $315 million. President Christensen has the data and will get it to Board member Angus. Several Board members inquired about child care for students. President Christensen noted they had a partnership for childcare the past year. The problem is not solved yet, but they are working on it. They are asking the resourcing from the legislature to address fundamental issues such a child care. Board member Jones strongly encouraged President Christensen to meet with legislative representatives.

Workforce/Talent Solutions Healthcare Sector Discussion

Commissioner Woolstenhulme welcomed the healthcare sector group and introduced Greg Bell, who then introduced the panel guests: Sarah Sherer, Tiffany Lipscomb, Kevin Allred, Brenda Bartholomew, and Allison Spangler. They shared with the Board members that there is a need to increase the number of healthcare program graduates. The supply of talent is not there. Kevin stated that one of the challenges they have is staffing. They're looking at expanding quick entry programs, and ways to develop training for LPN, scrub techs, imaging, and other technical professional licensing individuals. They would like to engage the Board with the legislators and the education committee representation on additional infusions of healthcare. Brenda requested to try to expand the remote programs in rural Utah beyond nursing. Allison recommended expanding relationships with high schools and HOSA and internships. They suggested allowing students an opportunity to shadow leaders and broaden their horizons. Greg noted that waitlists at the institutions have caused a problem. If we can’t expand the number of open spots, the industry will find a solution, but they would prefer to work with the Board. Chair Simmons said the Board has limitations but asked what the Board can do to help students understand their opportunities. The panel responded that open slots are the most significant need. The Commissioner mentioned that we are working on aligning prerequisites within the system. Board member Church asked the panel if they are connected with the UCAC advisors in the high schools. They are connected with high schools which do their best to expose people to the various pathways. The best path is to direct individuals into an entry role and use tuition reimbursement to help support them. Board member Artur Newell asked what other healthcare professions are most needed right now in addition to nurses. The panel mentioned licensed clinical social workers, mental health providers, clinical prepared social workers, surgical techs, and radiologists, to name a few. Board member Angus asked if the USHE institutions are delivering the finished product they need and what they need that they’re not seeing. Allison shared that graduates want to work in hospitals, not long-term care. Board member Jera Bailey would like to see something to support scholarship since we can’t keep increasing the wages forever or it will buckle. Members of the Board asked the OCHÉ staff to work on aligning the prerequisites within the next several months, not years. Commissioner Woolstenhulme called on the OCHÉ staff to meet to discuss aligning prerequisites within months. This was an information item only; no action was taken.

There was discussion amongst the group regarding the Snow College funding and Utah State University funding. Spencer highlighted HB333 – Talent Ready Utah, SB226 – Utah Data Research Center, HB 355 – Streamline State Scholarships, SB172 Utah Higher Education Assistance Authority, Prison Education, and Regional Pathway Coordinators. This was an information item only; no action was taken.

R&R Training

Geoff Landward provided R&R training to the Board. Under the policy, there are four responsibilities of the R&R team: regular communication between the presidents and Board members, informing the Board about institutional issues, serving as liaisons between the Board and board of trustees, and providing a mechanism for annual presidential performance reviews. Board member Church asked if the R&R team should talk with the institutional cabinet and executive team. Geoff answered in the affirmative. Now that the system has doubled the number of presidents, the R&R approach may need to be revisited. The relationship building, communication and all that comes with it is critical and needs to remain in some form. There is room for improvement in how we manage the performance of the presidents. There will be a longer conversation about this at a future Board meeting. Geoff asked the Board to take mental note of ways they can see this could be improved. Board member Jones and Vice-Chair Osmond shared that the R&R experience has been one of the best things about serving on the Board. The challenge has been knowing where to focus their time and where their priorities should be. Vice-Chair Osmond expressed that filling out the template feels like a waste of time. He suggested an annual review instead of having two reviews a year. Board member Mageelet asked when they should have the spring R&R ready. Geoff stated it should be done by June 1, if possible. This was an information item only; no action was taken.

Women’s Equality in Utah

Scott Anderson commissioned Dr. Susan Madsen and her team to issue the Women’s Equality in Utah report. Susan reviewed the 17 key indicators of women’s equality from the research, which are all impacted by higher education. She went through the top ten recommendations from the report. President Tuminez asked Dr. Madsen for ideas regarding childcare and eldercare. Susan indicated she would share resources with the president. Board member Clyde mentioned that we have to get women interested in higher-paying jobs. Chair Simmons expressed that we need to support women in their choices but provide them with the same opportunities as men. Board members Jones and Mageelet shared that we won’t make headway until men are engaged and understand how important it is that we don’t blame and shame men for where we are but engage them. Transition of Clock-Hour to Credit-Hour Programs

As part of the strategic plan, the Utah Board of Higher Education (Board) approved the transition of technical education programs from clock-hours to credit hours. In July 2021, the Board passed Policy R474, *Clock-Hour to Credit-Hour Transition* to guide the process. Within the policy, section 4.2 states that each program’s transition to credit, including the delivery format, must be approved by the Board. This approval is required by:

- the Council on Occupational Education (COE), the agency that accredits the technical colleges
- the U.S. Department of Education for financial aid eligible programs

Section 4.3 of the policy states that institutions shall submit applications for approval of the clock-hour to credit-hour conversion by the accrediting body through the Office of the Commissioner following a prescribed schedule. Following approval, the Office of the Commissioner will submit the applications to the COE for approval.

The total cost for the transition is $25,000. Based on the number of programs offered by each institution, technical colleges will reimburse the system office for this amount.

Because technical colleges offer certificates only, institutions must retain both clock-hours and credit-hours in the student information system. Once the transition of all programs is complete, credit-hours will be used in publications and articulation agreements. Credit will be calculated using a formula provided by the U.S. Department of Education. There will be some flexibility on implementation.

**Commissioner’s Recommendation**

The Commissioner recommends approval of the transition of the programs included in the attachment from clock-hours to credit-hours.

MEMORANDUM

Student Peer Mentoring Services

The Commissioner’s Office has worked closely with two partners, Huntsman Mental Health Institute (HMHI) and The Jed Foundation, to build out the Board’s strategy to "Ensure systemwide institutional supports for student mental health and campus safety."

In August 2021, the Student Affairs Committee advanced a budget priority proposal to the Utah Board of Higher Education requesting state appropriations for systemwide initiatives supporting USHE institutional efforts in addressing the growing mental health needs of USHE students. As a result, in its 2022 Legislative Session, the Utah Legislature appropriated $3 million in ongoing funds for mental health services to USHE students. $1.5 million of that funding is dedicated for peer mentoring support. The Jed Foundation has identified peer mentoring programs as a best practice for higher education mental health strategic planning.

In consultation with the Chief Student Affairs Officers of the 16 USHE institutions, it has been decided to continue current services through June 2024 with the Trula Foundation while institutions implement various accompanying strategies to customize services for their individual needs. Trula provides an evidence-based, campus-integrated peer support program for early anxiety intervention. The program also provides best-practice training programs such as QPR (QPR Institute), Mental Health First Aid (National Council of Behavioral Health), and CPE (NASPA). Continuing services with the Trula Foundation would ensure systemwide mental health support is available for all USHE students.

Commissioner's Recommendation
The Commissioner recommends the Board approve the Trula Foundation's contract extension through June 30, 2024.
SERVICES AGREEMENT

This Services Agreement ("Agreement") is entered into and effective as of the 1st day of September, 2020 (the "Effective Date"), by and between the University of Utah, a body politic and corporate of the State of Utah and a public institution of higher education, for and on behalf of the Utah System of Higher Education ("University"), and Trula Foundation, a Utah nonprofit corporation ("Service Provider"). University and Service Provider are sometimes collectively referred to herein as "Parties", or individually, as a "Party". In consideration of the mutual promises, conditions and undertakings set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Scope of Work and Compensation. Subject to and in accordance with the provisions of this Agreement, Service Provider is willing to provide and University wishes to obtain those certain professional services described in Appendix A attached hereto and incorporated herein by this reference (the "Services"). All Services provided by Service Provider under this Agreement shall be provided in a competent, prompt, and professional manner. Service Provider agrees to cooperate in good faith with University in connection with the resolution of any concerns that may arise with respect to any of the Services.

The compensation due to Service Provider for any Services ("Compensation") is detailed in Appendix A. Unless expressly provided otherwise in Appendix A, the Compensation includes all expenses related to the Services, and no expenses of any kind relating to the Services may be separately charged to University without University’s prior written approval. If the Parties agree in Appendix A or in an amendment to this Agreement that any expenses relating to the Services shall be reimbursed by University, the following shall apply: (i) all such expenses to be reimbursed by University must be actually incurred, reasonable, and necessary to the performance of the Agreement, and may in no event include office overhead or salaries or any items or expenses for which Service Provider receives reimbursement from third parties; (ii) long-distance travel and lodging shall be coordinated in advance with University and shall not be initiated without University’s prior approval in each case; (iii) if the costs of any hardware, software, or equipment or services (other than the Services) are to be reimbursed to Service Provider, University must have consented in writing in advance to the specific hardware, software, equipment, or services, and to the cost thereof, and consented in writing in advance that the cost of these specific items is not included in the Compensation and may be separately charged to University; (iv) any invoice requesting reimbursement shall itemize in reasonable detail the incidental expense for which reimbursement is requested, and (v) upon University’s request, Service Provider shall promptly (and in no event later than ten (10) calendar days following written request from University) provide supporting receipts or other reliable back-up documentation for any expense invoiced to University. All Compensation and permitted reimbursable expenses shall be paid by University in accordance with all applicable University policies and procedures, and shall be based upon invoices submitted by Service Provider. Invoices shall identify Service Provider’s taxpayer identification number, and shall be sent to the
attention of __________________ (or such other individual as University may designate in writing to Service Provider), at the address for University set forth herein. Compensation checks shall be payable to Service Provider and shall be delivered to Service Provider’s notice address set forth in this Agreement.

2. **Term.** The term of this Agreement (sometimes referred to herein as the “Term”) shall commence upon the Effective Date and shall expire at midnight on June 30th, 2022, unless earlier terminated as permitted herein.

3. **Materials.** All materials, equipment, software, and instruments purchased using funds provided by University shall at all times remain under the sole ownership and control of University.

4. **Work Product.** Service Provider will provide the University with Services utilizing the Service Provider’s proprietary programming, methodology and technology, and all such property shall be the sole property of the Service Provider.

5. **Indemnification.** Service Provider shall hold harmless, defend and indemnify the University of Utah and its trustees, officers, employees, and agents from and against any and all claims, losses, causes of action, judgments, damages and expenses, including, but not limited to, reasonable attorneys’ fees, because of bodily injury, sickness, disease or death, or injury to or destruction of tangible property or any other injury or damage resulting from or arising out of: (a) performance or breach of this Agreement by Service Provider, or (b) Service Provider’s use of University of Utah premises, or (c) any act, error, or omission on the part of Service Provider, or its agents, employees, invitees, participants, or subcontractors, except where such claims, losses, causes of action, judgments, damages or expenses result solely from the negligent acts or omissions or willful misconduct of University of Utah, or its trustees, officers, employees, or agents.

6. **Insurance.** Prior to performing any work or Services under this Agreement, Service Provider shall secure and maintain Commercial General Liability insurance with per occurrence limits of at least $1,000,000 and general aggregate limits of at least $2,000,000. Such insurance policies shall be endorsed to be primary and not contributing to any other insurance maintained by University of Utah.

   Service Provider shall also secure and maintain all employee related insurances, in the statutory amounts, such as unemployment compensation, worker’s compensation, and employer’s liability, for its employees involved in performing the Services pursuant to the Agreement.

   The University of Utah shall be named as an additional insured on the Commercial General Liability insurance policy by endorsement. Service Provider will cause any of its subcontractors, who provide materials or perform Services relative to this Agreement, also to maintain the insurance coverages and provisions listed above.
7. **Compliance with Laws.** In performing the Services, Service Provider shall comply with all applicable federal, state and local laws, regulations and orders of the United States, and any other country having jurisdiction over the activities of Service Provider hereunder. Service Provider shall obtain, at its expense and as part of the price for Services, all required government licenses, permits and approvals for the performance of the Services.

Service Provider warrants and represents that Service Provider, its officers, directors, and any employees or subcontractors providing goods or services under this Agreement are not currently excluded, debarred, or otherwise ineligible to participate in federal health care programs as defined in 42 U.S.C. § 1320a-7b(f) or to provide goods to or perform services on behalf of the federal government as either a contractor or subcontractor. This shall be an ongoing representation and warranty during the term of this Agreement and Service Provider shall immediately notify University of any change in the status of the representation and warranty. University may immediately terminate this Agreement for cause in the event of a breach of this section or as a result of any material change in status of the representation and warranty. Notwithstanding any other provision in this Agreement, Service Provider shall defend and indemnify University and its officers, employees, and agents in connection with any and all claims, losses, causes of action, judgments, fines, damages, or other similar expenses, including reasonable attorney fees, resulting from a breach of this section.

8. **Confidentiality.** Service Provider is hereby informed that University is a governmental entity and thus subject to the Government Records Access and Management Act of the Utah Code, Section 63G-2-101 et seq., as amended (“GRAMA”). Pursuant to GRAMA, certain records within University’s possession or control may be subject to public disclosure. University hereby informs Service Provider that any person or entity that provides University with records that such person or entity believes should be protected from disclosure for business reasons must, pursuant to Section 63G-2-309 of GRAMA, provide to University, with the record, a written claim of business confidentiality and a concise statement of reasons supporting such claim. Service Provider acknowledges and agrees that all business and financial data provided by University to Service Provider or accessed by Service Provider in connection with its obligations or rights under this Agreement or the performance of any services by Service Provider under the Agreement (collectively, “University Data”), are proprietary and confidential in nature. Service Provider shall not use University Data for any purpose other than the authorized purposes of the Agreement. Except as expressly and unambiguously allowed herein, and except where disclosure is required by law (provided, however, that Service Provider shall promptly notify University and take reasonable steps to assist University, at University’s expense, in contesting such disclosure requirement or in otherwise protecting University’s rights prior to any such disclosure), Service Provider will, and will require its employees to, hold in confidence and not use, disclose, share, or publish any University Data in any manner whatsoever, in whole or in part, without the prior written consent of University in each case and shall similarly bind its permitted contractors, if any, in writing.
