## DESCRIPTION OF THE UTAH SYSTEM OF HIGHER EDUCATION

The Utah System of Higher Education consists of nine public colleges and universities governed by the State Board of Regents, assisted by local Boards of Trustees. The System includes two major research/teaching universities, two metropolitan/regional universities, two state colleges offering limited 4-year degrees, and three community colleges. The basic missions of these nine institutions are described below

#### UNIVERSITY OF UTAH

The U of U is a major urban state university with significant programs of sponsored research and of graduate, professional, and undergraduate education programs in 15 colleges and professional schools, including law and medicine.

#### **UTAH STATE UNIVERSITY**

USU serves as the state's land-grant institution under state and federal legislation and is a primary center of university research and of graduate, professional, and undergraduate education in numerous fields of study.

#### WEBER STATE UNIVERSITY

WSU is a student-centered institution focused on two-and four-year programs with a strong commitment to applied learning in technical, professional and liberal education. Masters Degree programs are also available in education, business and accounting.

#### SOUTHERN UTAH UNIVERSITY

SUU has the mission of a regional, comprehensive, undergraduate institution with a broad program of liberal and professional education, and is a primary center for service and cultural programs designed to advance the southern Utah area. Masters Degree programs are also available in education, business, accounting and fine arts.

#### **SNOW COLLEGE**

Snow College, with campuses in Ephraim and Richfield ("Snow South"), is an open access comprehensive community college that offers a broad range of general/liberal education and vocational/technical programs leading to Associate of Arts, Associate of Science, and Associate of Applied Science Degrees. Numerous specialized short-term vocational training certificates and diploma programs are also offered.

#### DIXIE STATE COLLEGE OF UTAH

Dixie State College is an open access, comprehensive community college with a mission of providing general and liberal education as well as applied technology programs leading to Associate of Arts, Associate of Science, and Associate of Applied Science Degrees. Certificates are awarded for short-term and applied technology programs. As of July 1, 2000, the institution is authorized by the Regents to offer Bachelors Degree programs in business and computer technology.

#### **COLLEGE OF EASTERN UTAH**

CEU is an open access, comprehensive community college with a mission of providing general and liberal education as well as applied technology programs leading to Associate of Arts, Associate of Science, and Associate of Applied Science Degrees. Certificates are awarded for short-term and applied technology programs.

#### UTAH VALLEY STATE COLLEGE

UVSC consists of two interdependent divisions. The lower division embraces the mission of an open access comprehensive community college which provides general and liberal education as well as applied technology programs leading to Associate of Arts, Associate of Science, and Associate of Applied Science Degrees. Certificates are awarded for short-term and applied technology training programs. The upper division consists of fifteen baccalaureate degree offerings in high demand majors.

#### SALT LAKE COMMUNITY COLLEGE

SLCC is an urban, multi-campus, open access, comprehensive community college with a mission of providing applied technology education as well as general and liberal education leading to Associate of Arts, Associate of Science, and Associate of Applied Science Degrees. Certificates are awarded for short-term and applied technology programs.

#### UTAH SYSTEM OF HIGHER EDUCATION 2001-2002 DATA BOOK

#### **Executive Summary**

The USHE Data Book is a compilation of reports on the Utah System of Higher Education and its nine component institutions. Some form of this book has been published each year since the creation of the Utah State Board of Regents and the Utah System of Higher Education in 1969. The book is intended to allow the Governor's Office, Legislators and legislative staff, USHE institutions, and the general public to query particular aspects of the Utah System of Higher Education. An example of common questions that may be answered from the 2001-2002 edition of the USHE Data Book are:

How many and what types of degrees were awarded in the USHE in 1999-2000? (Tab B)

How did USHE enrollments differ from pervious years? (Tab C)

How much money does the USHE spend on Applied Technology Education? (Tab D)

How do tuitions at the USHE's two year and four year colleges compare? (Tab E)

What kind of financial aid is available at the nine USHE institutions? (Tab F)

What portion of the USHE is funded by entities other than the State of Utah? (Tab G)

Has the way in which the State funds higher education changed over the years? (Tab H)

What did it cost in 1999-2000 to educate a student at one of the USHE institutions? (Tab I)

How many hours per week do USHE faculty members spend teaching? (Tab J)

How is space inventory classified by each USHE institution? (Tab K)

How do USHE institutions compare to their peers on key funding measures? (Tab L)

A good portion of this book consists of raw data that will allow readers, if so inclined, to engage in their own research and analysis. The quality and quantity of system-level data has improved over the years.

All eleven tabs of the data book are self containing. Each has its own table of contents. Specific descriptions of each report included in each tab can be found on page one. If questions arise about any of the data included in this book, please contact the Office of the Commissioner of Higher Education at (801) 321-7100.

#### **DEGREES AND AWARDS**

#### **Background**

Degrees and awards included in this tab represent information from institutions traditionally listed in previous years. This includes all degrees and awards granted by the nine public institutions in the Utah System of Higher Education, and for comparative information, degrees and awards of traditional non-public institutions: Brigham Young University, Westminster College, and LDS Business College. Not included in this tab are degrees and awards granted by state supported Applied Technology Centers (ATCs) or private/proprietary institutions.

#### **Explanation of Attachments**

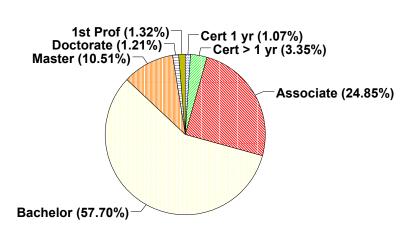

Tables 1 through 10 array the number and types of degrees awarded in Utah in 1999-2000 by institution and by degree type. Tables 9 and 17 through 20 provide the distribution of awards by the key demographic categories of gender and ethnicity. Tables 10 through 16 provide degrees and awards data by program (USHE institutions only).

#### **ENROLLMENTS**

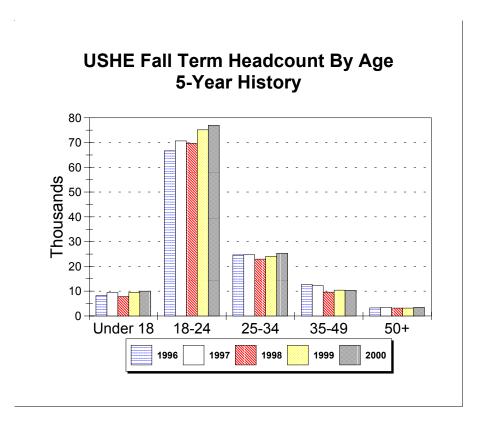

#### **Background**

Five times a year, the USHE institutions submit to the Office of the Commissioner electronic files containing enrollment information on courses and students at the institutions. A historical database has been developed over the years that is the source material for the enrollment data reported in this tab. Various types of enrollment data are included here.

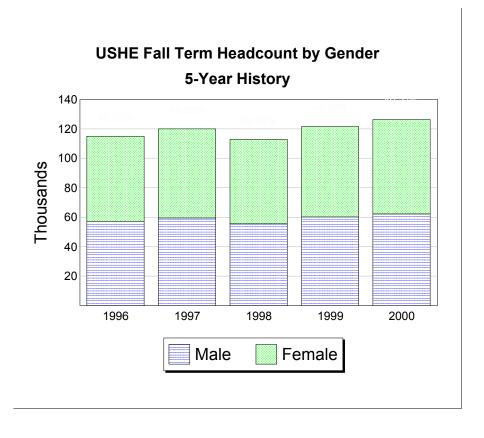

#### **Explanation of Attachments**

In the Enrollment Detail portion of the tab – Figures 1 through 4 and Tables 1 through 8 – disaggregate recent-year enrollments are presented according to various demographic and instructional categories including: age, gender, ethnicity, residency, class standing and level of instruction. In the Enrollment History portion of the tab, an extended historical data set of basic enrollment figures is reported for each institution and the USHE as a whole. The term FTE utilized frequently in this tab stands for full-time equivalent student. FTE is a statistical unit that equates to the amount of credit hours a student needs to take per semester in order to complete a four-year program in four years. For example, an undergraduate student taking 15 semester credit hours is considered an FTE student. A graduate student taking 10 semester credit hours is also considered an FTE student.

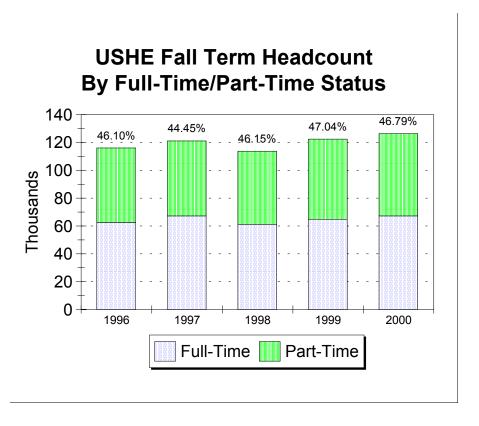

FIGURES 1 & 2

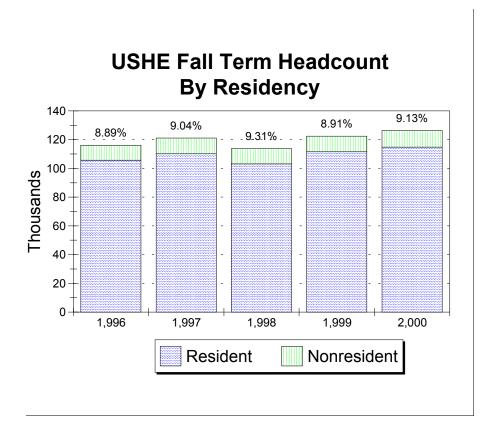

Corresponding data found in Table 2

FIGURES 3 & 4

Corresponding data found in Table 3

## Applied Technology Education in the Utah System of Higher Education - 1999-2000

#### **Overview**

Applied technology education (ATE) offerings within the Utah System of Higher Education (USHE) are comprehensive in nature and provide students with a seamless continuum of opportunities from basic skills training to professional programs. These offerings focus on the needs of the global economy by preparing students with vocational skills for entry level jobs while laying the foundation for the academic and more advanced technical skills needed for lifelong career development.

The USHE offers more than 160 certificate programs that prepare individuals with applied and technical skills necessary to master specific job competencies. The USHE also offers over 200 associate degree programs which not only prepare students for specific occupational careers, but give students the integration of academic and technical skills necessary for future career development.

Certificates of completion are awarded for short-term training programs that may be creditor clock-hour based. One-year certificates are often contained within an associate degree program and are awarded upon completion of a certain number of the courses required for degree completion. These certificates may also be credit- or clock-hour based. Associate of Applied Science (AAS) Degrees are two year ATE degrees designed to lead students directly to employment. Associate of Arts (AA) and Associate of Science (AS) Degrees are designed primarily to transfer to four-year institutions and meet the requirements of the first two years of a bachelor's degree. Many AS and AA Degrees also provide specific skill levels that enable students to enter the workforce directly.

USHE institutions also work closely with the business and industry community to develop and deliver short-term programs specifically tailored to their workforce training needs.

Accomplishments in ATE in the USHE during 1999-2000 include:

- A 6.8 percent increase in budget-related FTEs in applied technology education programs from 1998-99 to 1999-2000. Budget-related FTEs for this reporting period totaled 15,458; headcount in budget-related ATE programs totaled 25,942.
- C Enrollments in USHE non-credit ATE programs totaling 50,230.
- C Direct costs of \$54,808,893 for budget-related applied technology programs, an increase of 12.1 percent over 1998-99. The USHE exceeded its maintenance of effort target for expenditures in ATE programs by 15.2 percent in 1999-2000.

#### **Enrollments**

USHE institutions deliver ATE programs on both a credit and non-credit basis. The tables below contain information on credit and non-credit programs. Table I provides a five year history of non-credit enrollment by institution. Non-credit enrollment areas include such programs as Custom Fit, Short-term Intensive Training (STIT), Continuing Education, the SLCC Skills Center, conferences and workshops which upgrade the skills of employees, and licensing programs. Non-credit training programs vary in length, but are often shorter than traditional credit programs because they are tailored to meet specific needs of the businesses which request the programs. The numbers below do not include non-vocational, non-credit courses which may be described as community service activities. In FY 2000, non-credit ATE programs accounted for 50,230 enrollments in the higher education system.

Table I

System Total	94,107	25,942	26.0%	50,230	76,172

<sup>\*</sup> Contains some duplication

Credit programs in the USHE are measured not only in terms of headcount enrollment, or the number of individual students served, but also by full-time equivalents (FTEs). One FTE equals 15 credit hours. Table III, on the following page, shows a five year history of FTEs in USHE budget-related applied technology education programs. Budget-related FTEs in ATE programs for 1990-2000 reflected a 6.8 percent increase over the prior year.

Table III

**Budget-related FTEs in ATE Programs**

1996-97

1998-99

1999-00

Since 1989, the Board of Regents has followed a policy regarding support and maintenance of applied technology education in the USEH. The policy, an affirmation to the Legislature and the Applied Technology community of higher education's commitment to ATE, evolved through a series of discussions by the Commissioner and staff with the Funding Mechanism Task Force, Chief Academic Officers, Budget Officers, and the Council of Presidents.

1997-98

Year

Each institution in the USHE providing applied technology education programs in 1999-2000 was required to meet or exceed a maintenance of effort expenditure target for direct

instructional costs. These targets and actual expenditures for 1999-2000 are shown in the table below. The direct cost of instruction for ATE programs in 1999-2000 totaled \$54,808,893 — a 12.1 percent increase over the prior report year. All but one institution in the USHE exceeded maintenance of effort targets. As a whole, the USHE exceeded its maintenance of effort target for 1999-2000 by 15.2 percent. This is indicative of the efforts that institutions are expending to improve applied technology education in the state.

Table IV

ATE Direct Cost of Instruction

				1999-2000	% Expenditures to
Institution	1998-99	1999-2000	% Change	MOE Target	MOE Target
USU	\$1,253,421	\$1,899,216	51.5%	\$1,248,761	152.1%
WSU	\$7,584,255	\$8,046,787	6.1%	\$8,060,007	99.8%
SUU	\$2,348,291	\$2,259,886	-3.8%	\$2,116,068	106.8%
SNOW	\$1,343,710	\$3,806,072	183.3%	\$1,261,678	301.7%
DIXIE	\$2,724,444	\$3,225,597	18.4%	\$2,059,032	156.7%
CEU	\$2,169,517	\$2,318,401	6.9%	\$1,975,619	117.4%
UVSC	\$11,739,208	\$12,925,475	10.1%	\$11,409,018	113.3%
SLCC	\$19,736,748	\$20,327,459	3.0%	\$19,454,746	104.5%
System Total	\$48,899,594	\$54,808,893	12.1%	\$47,584,929	115.2%

Figures from Cost Study tab in Utah System of Higher Education Data Books for applicable years.

## **ATC Service Regions (ATCSRs)**

Applied technology training is also provided by three Applied Technology Center Service Regions (Mountainland, Southwest, and Southeast). This is a joint effort between public and higher education in the colleges and high schools which receives line-item funding. Training provided by the ATCSRs is short-term, open-entry/open exit, competency based and non-credit. Both secondary students and adults benefit from these programs.

#### Additional Institutional Support for Applied Technology Education

Institutional reports also identified ways in which the institutions are promoting applied technology education, whether or not funds were expended. Examples of these efforts follow: **Weber State University (WSU)** 

1. WSU partnerships with local school districts continue to flourish. Over 4000 high

school students participated in concurrent enrollment program (students receive credit at both their high school and Weber State University), and more than 90 percent of the courses offered were ATE courses. Nine ATE degree programs have been identified which will be linked to the secondary system in a program called Tech Prep. This effort provides a recommended curriculum for high school students to be successful at Weber State University, articulates courses where possible, involves the ATCs in this process, and leads to either a two or four-year degree.

- 2. Dozens of companies and organizations in the region participate in Weber State University training courses, conferences and workshops. In addition, hundreds of company employees are enrolled in job related credit courses. For example, WSU is reaching hundreds of employees each year in a non-budget related credit program on how to more productively manage inventory and the supply chain.
- 3. Perkins funds have been used to focus in Information Technology related areas. WSU ATE faculty are strongly encouraged to establish strong ties with their public education colleagues. This is being done through providing funding for visits to their high school and ATC teaching locations as well a supporting their attendance at state conferences and workshops. At the institutional level, WSU is providing merit pay for exceptional faculty as well as the development of a new evaluation system more closely linking institutional goals and performance. At the college level, faculty are encouraged to upgrade their professional skills through partnerships with local business and industry and the development of online courses.

### **Dixie State College of Utah**

- 1. During 1999-2000, Dixie State College of Utah established or continued partnerships with:
  - The Dixie Regional Medical Center for training their personnel a partnership which continues to be strong.
  - Local dentists, to provide clinical training in their office space; this partnership will continue through the school year.
  - The Washington County School District, to provide ATE training for high school juniors and seniors. This continues to be a strong partnership; a total of 501 students were enrolled Fall semester 1999.
  - The Washington County School District and the Southwest ATCSR to provide Diesel Mechanic training for high school and adult students.
  - The Utah State Department of Workforce Services (DWS) to provide services

and training for Single Parents and Displaced homemakers.

- 2. A CD was produced by students in the Visual Technology Program to be used for ATE program recruitment. It was paid for by Carl Perkins funding. Copies will be sent to counselors in the high schools in Utah and some contiguous states.
- 3. Perkins money was also used to support the Career Center on campus and to hire an ATE program student advisor and to provide program enhancement through faculty inservice and through the purchase of equipment for several ATE programs.
- 4. Support for the partnership with DWS to provide training and services for Single Parents and Displaced Homemakers was maintained with Perkins funding.

#### **College of Eastern Utah (CEU)**

- 1. Equipment was purchased for the Automotive, Building Construction, Computer Information Systems, Cosmetology, Electronics, Drafting, Diesel/Machining, Heavy Equipment/Trucking, Mining, Nursing and Welding Programs.
- 2. CEU continues partnerships with the Southeast Region ATCSR, the State of Utah Labor Commission (Mining, Safety, Health Act [MSHA] grant), the Southeastern Area Health Education Center, and Utah Vocational Rehabilitation. The college is in a final year of a Carbon, Emery and Grand counties grant to offer Geographic Information System workshops, employment and mapping.
- 3. Construction has begun on the new Cosmetology Department in the old student center.
- 4. A Moab needs assessment has been completed.

# **Utah Valley State College (UVSC)**

- 1. Self-studies were conducted by School of Technology, Trades and Industry, the School of Business (reorganization of department), and the Mountainland Advanced Technology Center.
- 2. Equipment was purchased for the Art/Visual Communications, Building Trades, Diesel Heavy Equipment, Drafting Technology, Electronics and Computer Technology, Environmental Technology, Lineman Training, Business, Communications, and Office Technology, Multimedia Communication Technology Programs and the Learning Resource Center/Applied Technology Assistance Center.
- 3. Additional Assistance with counseling, testing, and tutoring for students in the ATE programs was provided by Student Services. Counseling services, personal development courses and assistance with counseling, testing, and tutoring provided by the Center for Personal and Career Development.

- 4. The Aviation Science Program received a gift of one-half the cost of a twenty-three thousand square foot hanger at the Provo Airport. The UVSC Foundation assisted the program in financing the remainder to allow needed expansion for that program, which now has approximately 700 headcount and 300 FTE with 26 aircraft to back up the need for flight training. UVSC has a solid partnership with Diamond Aircraft Industries of London, Ontario, Canada and another partnership with Sky West Airlines of Utah is being explored vigorously. Furthermore, the Global Aviation Internet program got it's start and Fixed-Based Operators (FBO's) from around the nation are taking a serious interest in this unique program as well.
- 5. The Apprenticeship Program continues to grow with headcount of over 600 students.
- 6. The UVSC Board of Trustees approved an "option" in the Collision Repair program called "Street Rod". We see expanded growth in this program due to statewide and national interest in this area.
- 7. The Fire Science Program continues to expand and grow with the addition of the Paramedic Certification. Also, the new Fire Administration Bachelor Degree has given the program increased interest and growth in the BS direction. In addition, the Fire Science 5-acre Training Ground is continuing the development of training props for the purpose of "live" fire fighting and Haz Mat training exercises.
- 8. A new \$17,000.00 "refrigeration trainer" was purchased from Hampton Engineering for the AC and Refrigeration Program. This will enhance instruction and allow students to see first hand the intricacies of a total refrigeration system.
- 9. The Lineman Technology Training program is beginning the development of an "underground" utility curriculum to add to its already highly technical Electrical Power and Line Technology laboratories and courses. In addition, Telecommunications companies are contacting the program coordinator regarding additional training courses and laboratory exercises to meet their needs.
- 10. Drafting Technology is continuing in their move to offer (among their other offerings) a state-of-the-art Structural Steel software program and a distance learning AutoCad offering. These two, new, programs are in their infancy, but predictions are that this will be areas of new growth and interest.
- 11. The Diesel Technology program was enhanced this past year with an new heavy equipment "lift" that is unique to the program and unique to the region. UVSC has had many interested industry representatives stop by to take a look. The machine will lift any piece of equipment currently worked on or that there are plans to work on. This is truly a state-of-the-art piece of equipment that was badly needed and through the efforts of the ATE Director, the Dean and the Program Department Chairperson UVSC were

able to procure this machine with Carl Perkins money.

# **Salt Lake Community College (SLCC)**

- 1. During 1999-2000, SLCC established partnerships with:
  - National Automotive Diagnostics Inc., a program designed to update technicians with new technologies.
  - AMP Corporation SLCC also became a Regional-Certified AMP Training Center.
- 2. Capital equipment and laboratory enhancements included Business Building computer lab upgrades (\$115,000), Small Equipment/Vehicle Technology (\$15,000), the Automotive Program (\$35,000, \$28,000 of that at the prison), Electronics and Electricity (\$30,000), the CAD Program at the prison (\$49,000), Graphics (\$97,000), Printing (\$18,000), and Apprenticeship programs (\$280,000, including a crane which will be used by several departments, as well as upgrades in the electricity lab and equipment for the ironworkers and other programs.)
- 3. A new Dental Hygiene full-time faculty member and full-time office manager were hired.
- 4. A part-time evening Apprenticeship Coordinator was hired.
- 5. Added the Cosmetology Program to Granite High School for Granite students.
- 6. Hosted the Skills Center Career Fair; the Job Expo, which is sponsored by Marketing Department students; the State Vocational Industrial Clubs of America (VICA) Competition; and the State Ford/AAA Competition.
- 7. Created three high-tech classrooms in the Business Building, upgraded one high-tech classroom in the Business Building to Level II, remodeled BB312A for a CIS computer networking instructional lab, upgraded software in the BIT and CIS Computer Labs to Windows 2000 and Microsoft Office 2000, and added high-end object-oriented programming languages in the CIS program.
- 8. Received an Injection Molding machine on loan to Manufacturing and Automation Technologies (MAT) from Toshiba, and received a donation of metal and materials to MAT from MOOG Manufacturing.
- 9. Continued expansion of state-wide curriculum and articulation in Electricity, HVACR and Plumbing.

10	

Implemented MCSE (Microsoft Certified Systems Engineer) courses and an A+Certification preparation course.

10.

TABLE 4	USHE Undergraduate Tuition In Actual and Real Dollars 9
TABLE 5	USHE Undergraduate Student Tuition & Fees for 2000-01 10

#### **TUITION AND FEES**

#### **Background**

The Higher Education Act of 1969 grants to the Board of Regents authority to set tuition and miscellaneous fee levels for each of the USHE institutions. Decisions on tuition and fees usually occur in two phases. In the fall prior to the annual legislative session, the Regents adopt a general percentage increase in tuition for the upcoming academic year. Following the legislative session, the USHE institutions submit tuition schedules that incorporate the general percentages adopted by the Regents. Proposed miscellaneous fee increases are proposed at that time as well. This tab includes the Regents' action on tuition and fees through the 2000-2001 Academic Year.

#### **Explanation of Attachments**

Tables 1 and 2 and Figures 1 through 4 focus on resident undergraduate tuition for 2000-2001 for all nine institutions. Tables 3 and 4 and Figures 5 through 8 provide historical data on undergraduate tuition and fee levels for both resident and non-resident students. Table 5 arrays the miscellaneous fees that are charged at all nine USHE institutions for 2000-2001, and also provides tuition and fee data on graduate and professional programs.

#### REGENTS FOUR-FOLD STRATEGY ON ACCESS

Concerned for some time over the escalating cost of college, the Utah State Board of Regents has implemented a four-fold strategy aimed at preserving college access for Utahns. The strategy, developed over the past two years, calls for all parties involved in Utah higher education--including parents, students, institutions, the legislature, and the Regents--to share in the responsibility of preserving Utah's tradition of open access.

Maintain Moderate Tuition - Prior to 1996-97, tuition at Utah's public colleges and universities had increased, on average, two percentage points faster than the rate of inflation for 19 straight years. Utah's tradition as a low-tuition state was in jeopardy.

**2** Expand State-funded Need-based Aid - During the 1996 legislative session, the Regents' initiated and secured passage of House Bill 64 - Utah Centennial Opportunity Program for Education (UCOPE). The bill established and made an initial appropriation for Utah's first-ever, exclusively state-funded, need-based aid program for resident college students. College financial assistance for low-income Utahns is a need long recognized by the Regents. Over time, UCOPE needs to grow to help thousands of such Utahns achieve a college education.

**3** Encourage College Savings - The 1996 legislature also created a program designed to encourage parents and grandparents to save for the educational expenses of their future college students. The new program, known as the Utah Educational Savings Plan Trust or UESP, provides a series of incentives, including state and federal tax incentives, to encourage saving for college. Parental savings has been a declining source for higher education funding over the past 25 years. UESP provides a vehicle to help reverse that trend.

Maintain Local Control of Student Loans - The Regents initial involvement in the federal student loan program grew out of a desire to ensure that all Utahns had access to needed student loan capital. Twenty years later, the Regents' motives remain grounded in service to Utahns. Local control of the federal student loan program has enabled the Regents to; 1) facilitate the efficient, electronic movement of student loan capital and information among parties, 2) develop and share loan counseling material and resources, 3) make available state-of-the-art software and equipment, and 4) reduce the costs of student borrowing through a series of borrower incentive programs. (Borrowers were provided over \$3 million in fee and interest reductions in Fiscal Year 1999 and \$5.8 million in Fiscal Year 2000).

#### STATE STUDENT FINANCIAL AID PROGRAMS

#### INTRODUCTION

The following tables provide statistical information for two state-funded student financial aid programs administered by the Utah Higher Education Assistance Authority. Both programs have been operational for approximately four years. The Utah Educational Savings Plan Trust (UESP) and Utah Centennial Opportunity Program for Education (UCOPE) are described in further detail below.

<u>Program</u> <u>Description</u>

Utah Educational Savings Plan Trust (UESP) UESP was established by the 1996 Utah State Legislature to provide Utahns with an opportunity to save for the future educational expenses of their children, grandchildren or other young persons. Funds saved through UESP are invested, with the assistance of the State Treasurer, in four investment options. Option 1 is invested in short-term money market funds. Option 4 is invested in stocks. Options 2 and 3 are invested in an age-adjusting blend of stocks, bonds, and short-term money market funds. Participants are eligible for multiple federal and state tax incentives, including: (1) federal tax deferral, (2) federal shifting of income to the beneficiary, (3) exemption of income from Utah income taxes, and (4) a Utah deduction for account contributions by each participant, currently up to \$1,365 per beneficiary per year.

At the time the beneficiary of the account is ready to attend a higher education institution, principal and interest saved on his/her behalf will be accessible to cover qualified higher education expenses. Beneficiaries may attend any accredited college or university nationwide or Utah applied technology center. Beneficiaries can be changed without penalty.

Utah Centennial Opportunity Program for Education (UCOPE) UCOPE is a State supplement to increasingly inadequate grant and work-study assistance from Federal Government student financial aid programs. Program funds may be used for either grants or work-study awards to students with demonstrated financial need. If an institution's allotment for the 1997-98 award year was \$50,000 or more, the institution was required to use at least 50% of the funds for work-study stipends. No more than 3% of the funds allocated to an eligible institution may be used for administrative costs.

#### CAMPUS-BASED STUDENT FINANCIAL AID

#### INTRODUCTION

The following tables provide statistical information concerning a number of federally-supported student financial aid programs. These programs all are "campus-based," including the LEAP Program (formerly known as SSIG) as operated in Utah. Awards under all five programs are required to be based on demonstrated financial need. Annual state appropriations to the Board of Regents provide for a small part of the required matching funds for the FWS Program, and <u>all</u> required matching funds for the other four programs for USHE institutions. In addition to USHE institutions, Westminster College and several Applied Technology Centers participate in the LEAP Program.

<u>Program</u> <u>Description</u>

Federal Perkins Loans The Federal Perkins Loan Program is named in honor of Carl D. Perkins,

the former chair of the U.S. House of Representatives Education and Labor Committee. Perkins Loans are low interest (5 percent) loans with a maximum 10 year repayment period. The Federal Perkins Loan Program is called a "campus-based" program since each institution is responsible for administering the program on its own campus. The matching requirement in this program is 25 percent of the capital contributions to the institutional

loan fund.

Federal Work-Study

The FWS Program provides jobs for undergraduate and graduate students who qualify for financial aid. Employers pay a portion of the student's

who qualify for financial aid. Employers pay a portion of the student's wages while the FWS funds pay the remainder. FWS is also one of the campus-based programs with funding received directly from the U.S. Department of Education. Institutions are required to provide an annual 25

percent match for the Federal Work-Study funds.

Federal Pell Grants

The Federal Pell Grant Program is the largest federal student financial aid grant program. Federal Pell Grants are need-based awards to undergraduate students. Funding for the Federal Pell Grant Program comes directly from the U.S. Department of Education to the individual campuses. The Pell

Grant Program is provided to every eligible applicant. For the 1998-99 award year the maximum grant amount was \$3,300.

Federal Supplemental
Educational
Opportunity Grants
(FSEOG)
The FSEOG Program is a grant program for undergraduate students with exceptional need. Awards of up to \$4,000 per year are available depending on the student's need and availability of funds. The FSEOG Program is also considered a campus-based program. Funding for the program is provided by the U.S. Department of Education. The State matching requirement is

25 percent.

Leveraging Educational Assistance Partnership (LEAP) The LEAP Program (formerly known as the State Student Incentive Grant or SSIG Program) is a grant program for undergraduate students with substantial financial need. Awards of up to \$2,500 per year are available depending on the student's need and available funds. Funding for the program is provided partially by the U.S. Department of Education with a minimum of 100 percent state matching and maintenance of effort requirement of the designated state agency. The LEAP Program in Utah operates on a decentralized basis with the individual institutions responsible for the determination of awards.

#### PROGRAM-BASED STUDENT FINANCIAL AID

#### INTRODUCTION

The following tables provide statistical information for program-based student financial aid programs administered by the Office of the Commissioner. The Western Interstate Commission for Higher Education (WICHE) and the Terrel H. Bell Teaching Incentive Loan (TIL) programs are described in further detail below.

#### **Program**

# **Description**

Western Interstate Commission for Higher Education (WICHE) WICHE's Professional Student Exchange Program enables students in 13 western states to enroll in selected out-of-state professional programs when those fields of study are not available at public institutions in their home state. Exchange students pay reduced levels of tuition and the state pays a support fee to the admitting schools to help cover the cost difference between resident and non-resident tuition.

Terrel H. Bell Teaching Incentive Loan (TIL) The Terrel H. Bell Teaching Incentive Loan (TIL), (formerly the Utah Career Teaching Scholarship), is a state-funded program. The TIL program waives tuition and fees at the Utah public institutions of higher education, and pays toward tuition costs at BYU and Westminster College, for a period of up to four years (eight semesters is the maximum allowable assistance available.) Recipients are required to pursue a teacher education program and to teach in Utah public schools for a period equal to the time they receive TIL assistance. If for some reason the recipient does not complete an education program or does not teach in a Utah public school, they are required to repay all TIL funds received.

The Student Exchange Program administered through the Western Insterstate Commission for Higher Education (WICHE) and the Regional Dental Education Program (RDEP) assist Utah students in obtaining training in dentistry, veterinary medicine, optometry and podiatry under the interstate compact. Participating students pay resident tuition and general fees of the receiving state or reduced tuition at private institutions. The chart above is a summary of Utah's participation in these programs.

The Terrel H. Bell Teaching Incentive Loan (TIL) is designed to encourage outstanding students to pursue careers as teachers. The program is open to students enrolled in a program of study leading to teacher certification in a state-supported college or university, Brigham Young University, or Westminister College. Up to 365 students are awareded tution and general fee waivers. In addition, up to 20 TIL recipients receive a Premier award of \$1,000 per quarter \$1,500 per semester. The \$500 stipend was discontinued July 1994.

All Premier and Stipend awards are given only to TIL recipients, thus the numbers are included in the recipient "Total", otherwise, there would be duplication of numbers

#### FEDERAL FAMILY EDUCATION LOAN PROGRAM

#### INTRODUCTION

The Federal Family Education Loan Program (FFELP) currently makes four types of long-term, low interest loans available for students and the parents of students enrolled in eligible postsecondary education institutions. The four current loan types, described below, are: Federal Stafford Loans (subsidized and unsubsidized), Federal Parental Loans for Undergraduate Students (PLUS), and Federal Consolidation Loans. FFELP loans are made primarily by commercial lenders and are insured against loss by designated guaranty agencies and reinsured by the Federal Government. Utah, Consolidation Loans are made directly by the State secondary market for student loans.

FFELP is the largest single source of student financial assistance in the nation. For the federal fiscal year 1998 national loan volume totaled \$35.7 billion consisting of approximately \$8.6 million loans.

#### UTAH STUDENT LOAN PROGRAM

The Utah Higher Education Assistance Authority (UHEAA) is the designated guaranty agency in Utah. The tables on the following pages describe the loan volume and related statistics for loans guaranteed by UHEAA's Student Loan Guarantee Program (LGP).

#### **BASIC PROGRAM PROVISIONS**

A summary of the basic provisions for each of the FFELP loan programs is provided below:

#### **Program** Description

#### Federal Stafford Loans

The Federal Stafford Loan Program, named in honor of former Senator Robert Stafford, provides both subsidized and unsubsidized loans according to an individual student's financial need. For subsidized Stafford Loan borrowers who demonstrate financial need, the federal government subsidizes (pays) the interest accruing while the student remains in school and during a six month "grace" period. A student who does not qualify for the maximum amount through a subsidized loan may obtain the additional funding within the authorized loan limit through an unsubsidized Stafford Loan. Interest on unsubsidized Stafford Loans during school and grace periods may either be paid as accrued or capitalized and added to the loan principal, at the borrower's option. Eligible students in an independent status may borrow up to the following loan amounts per year:

	Subsidized	Unsubsidized
First-Year Undergraduates	\$2,625	\$4,000
Second-Year Undergraduates	\$3,500	\$4,000
Third-Year & Remaining Undergraduates	\$5,500	\$5,000
Graduate Students	\$8,500	\$10,000

<sup>\*</sup> The cumulative loan limit for independent undergraduate study is \$46,000. The cumulative loan limit for undergraduate and graduate study combined is \$138,500.

#### **Program Description**

#### Federal Stafford Loans (cont)

The interest rate on Federal Stafford Loans **first disbursed** on or after 7/1/98 but before 7/1/03 is a variable rate equal to the 91-day Treasury Bill auctioned before 6/1 plus 2.3% for repayment and forbearance periods and plus 1.79% for in-school, grace and deferment periods, and is adjusted annually each 7/1, not to exceed 8.25%. The Federal Stafford Loan interest rate for the period of 7/1/00 to 7/1/01 for loans disbursed on or after 7/1/98 is 8.19% for repayment and forbearance periods and 7.59% for in-school, grace and deferment periods. The Federal Stafford Loan interest rate from 7/1/99 through 6/30/00 was 6.32% for repayment and forbearance periods and 6.92% for in-school, grace and deferment periods. The maximum repayment period, which begins six months after the student is no longer attending school on at least a half-time basis, is generally ten years. For first time borrowers on or after 10/7/98, with debt in excess of \$30,000, the maximum repayment period is extended to 25 years.

#### Federal PLUS Loans

Federal PLUS Loans (for parents of undergraduate students) provide favorable interest rates and are available for the student's cost of attendance remaining after deducting other financial aid. Interest on Federal PLUS Loans for loans **first disbursed** on or after 7/1/98 but before 7/01/03 is a variable rate equal to the 91-day Treasury Bill auctioned at the final auction before 6/1 plus 3.1%, not to exceed 9%. The Federal PLUS interest rate for the period of 7/1/00 to 6/30/01, for loans first disbursed on or after 7/1/98 but before 7/01/03 is 8.99%. The Federal PLUS interest rate for PLUS loans for the period from 7/1/99 to 7/1/00 was 7.72%. Repayment on Federal PLUS Loans begins when the loan is made and extends over a maximum 10-year period, with possible extensions for approved deferments and forbearance.

#### Federal Consolidation Loans

Federal Consolidation Loans allow borrowers to consolidate all student loans into one, extend the repayment period and keep monthly payments more manageable. For Consolidation Loan **applications received** on or after 10/1/98, the interest rate was a fixed rate based on the weighted average of the interest rates of the loans being consolidated, rounded up to the nearest 1/8 of a percent, not to exceed 8.25%. Repayment on a Federal Consolidation Loan begins when the loan is first disbursed. The length of the repayment period varies depending on the beginning balance of the Consolidation loan plus the borrower's other education loans, with maximum repayment periods ranging from ten years to 30 years.

#### **COHORT DEFAULT RATES**

In June 1989, the U.S. Department of Education (ED) implemented a default reduction initiative to combat defaults in the FFEL Program. Under ED's default reduction plan, a "cohort" default rate is calculated and published for each participating school. Schools with default rates above specified percentages are subject to various sanctions or limitations. ED also began to publish informational cohort default rates for guaranty agencies and lenders, beginning with federal fiscal year 1991.

The cohort default rate is determined by the number of borrowers who entered repayment in the same year and by tracking this "cohort" group over a specified interval of time to determine the percentage of such borrowers who default. The formula for determining the fiscal 1998 cohort default rates is as follows:

# of Borrowers who Entered Repayment in Fiscal Year 1998 (October 1, 1997 through September 30, 1998) and Defaulted on or before the end of Fiscal 1999 (October 1,1997 through September 30, 1999)

# of Borrowers who Entered Repayment in Fiscal Year 1998 (October 1,1997 through September 30, 1998)

The cohort default rates are calculated from data supplied by guaranty agencies through the National Student Loan Data System process as directed by ED. Only Federal Stafford, Unsubsidized Stafford, and SLS Program Loans which qualify for federal reinsurance are included in the cohort default rate calculations. The formula described above is used to determine cohort default rates for schools with 30 or more borrowers entering repayment in fiscal 1998 For schools with fewer than 30 borrowers entering repayment in fiscal 1998 the cohort default rate is the average of the rates calculated for the three most recent fiscal years. Schools which have operated less than three years are considered too new for a meaningful rate to be calculated.

For 1998, UHEAA's cohort default rate (covering experience for all participating schools and lenders) was 3.5% which ranked 6th <u>lowest</u> nationally. The national average for all programs was 6.9%.

### UTAH STATE BOARD OF REGENTS LOAN PURCHASE PROGRAM

The Student Loan Purchase Program was formed in 1977 for the purpose of making loans to, and purchasing the loans of, qualified students attending eligible institutions of higher education. The Program, which began operations in January 1979, provides a secondary market for student loans which are guaranteed by the Utah Higher Education Assistance Authority (UHEAA) and originated by Utah lenders.

At the present time. 17 Utah lenders are originating student loans guaranteed by UHEAA. Of these 17 lenders, all 17 participate in the Board's secondary market activities and generally speaking sell their loans to the Loan Purchase Program at or prior to the time the borrower leaves school and begins repayment.

In October 1987, the Loan Purchase Program also began originating consolidation loans which provides a borrower with the opportunity to combine eligible types of outstanding student loan debts into one, new consolidation loan. Through a consolidation loan, a borrower is able to make a single monthly payment and can generally lower the amount of the monthly payment over the extended repayment period.

Following is a table of student loans purchased and originated by the Loan Purchase Program since inception:

Year Ending June 30	Loans Purchased	Consolidation Loans Originated
1979	\$ 21,320,674	
1980	25,048,084	
1981	3,984,461	
1982	21,366,185	
1983	48,340,963	
1984	40,475,239	
1985	18,773,146	
1986	32,062,783	
1987	29,581,200	
1988	30,241,627	\$ 2,697,880
1989	35,549,411	3,923,880
1990	38,570,030	4,758,842
1991	54,916,532	5,177,110
1992	54,168,658	7,042,012
1993	74,244,960	5,971,420
1994	84,119,891	13,602,362
1995	173,243,574	22,021,231
1996	123,861,615	28,618,203
1997	119,357,471	28,349,480
1998	134,072,443	30,362,067
1999	143,436,847	51,109,531
2000	161,432,463	42,830,086
TOTAL	\$1,468,168,257	\$246,464,104

At June 30. 2000, the Loan Purchase Program's portfolio of student loans consisted of 107.925 borrowers with an aggregate outstanding \$818.733.675. The student loan portfolio is financed through tax exempt and taxable student loan revenue bonds issued by the Board of Regents. At June 30, 2000, there were \$572.040.000 of tax exempt bonds and \$297,000,000 of taxable bonds outstanding. These bonds are secured by the assets of the Program and are not liabilities of the State of Utah.

#### FINANCIAL INFORMATION

## **Background**

This Tab is a compilation of various financial reports on the USHE, including reports on specific funding sources, non-appropriated funding of the institutions, and revenue trend analysis.

## **Explanation of Attachments**

Table 1 shows what percent of the USHE appropriated budget has come from tax funds, tuition and fees, and other revenue over the years. Table 2 documents the allocation of mineral lease funding within the USHE. Table 3 shows tuition and fee revenue information for the medical programs at the University of Utah. Table 4 documents changes in the Consumer Price Index that forms the basis for all inflation adjusted analysis in the Data Book. Table 5 illustrates the USHE's changing share of state tax funds, which dropped sharply from FY 1995 to FY 1997 but have somewhat stabilized and slightly increased over the last four fiscal years. Table 6 specifies uses of reimbursed overhead in the USHE. And, Table 7 shows total institutional budgets in recent years, both the Appropriated Budget and Other Current Funding. The appropriated budget is that funding traditionally included in the appropriations acts of the Utah Legislature. This funding usually includes state tax funds, tuition, mineral lease funding, and various other minor sources. Funding not included in the Appropriated Budget but included in Other Current Funding includes federal grants and contracts, gifts, federal student financial aid funding, and various other sources.

#### **BUDGET HISTORY**

### **Background**

The information presented in the following graphs and tables has been prepared to provide an analysis of recent budget history for the USHE and for each individual institution. This is one of two data sets developed to provide a balanced basis for analysis of the relative funding positions of USHE institutions. The other data set is the USHE Cost Study (Tab I).

The report calculates USHE expenditures, tax funds, and tuition per FTE student for each of the past 23 years, based on the instruction-related line items appropriated by the Utah State Legislature. These calculations are provided on a current-dollar as well as a constant-dollar basis in order to show the effects that inflation has had on USHE spending levels.

### **Explanation of Attachments**

Figures 1 through 6 show historical data on tuition and fees, and tax funds. These tables show that over the past two decades tuition and fee revenues have substantially increased, while tax funds per full-time equivalent student have decreased—after adjusting for inflation.

Figures 7 through 9 show that expenditures have generally followed the same trend as State tax funding levels. However, constant dollar expenditures per FTE student have not dropped as much as state tax revenues per FTE because of the substantial increases in tuition rates.

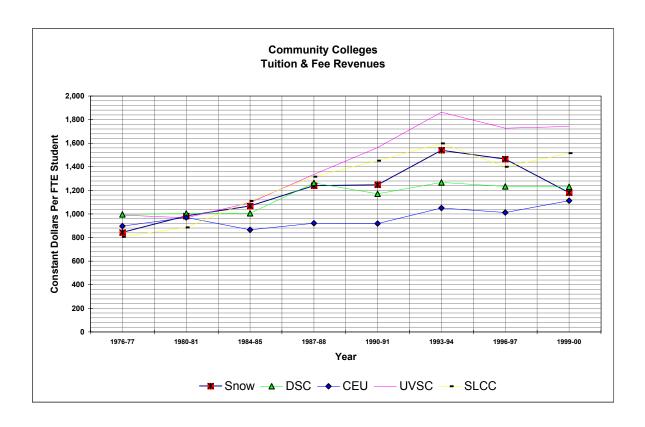

Figure 10 shows increased constant dollar funding for the medical programs at the University of Utah and agricultural programs at Utah State University. These universities help bring additional money into the State with federal grants and other sources of revenue to fund these and other programs.

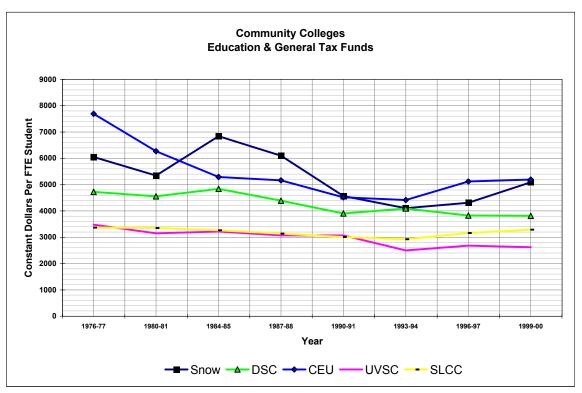

Figures 11 and 12 show that students are paying approximately 30 percent more in tuition than students paid in the late 1970's, while state tax funds and education and general expenditures have decreased (in constant dollars).

Table 1 provides basic data on the net changes for the 23-year period, for each institution and total USHE. Source data for this report are arrayed in the Appendices 1 and 2.

### TAB I COST STUDY

Introduction to the USHE Cost Study	. 1
History of Appropriated Funds Cost Study 1991-92 to 1999-2000	. 2
1999-2000 Appropriated Direct Instructional Expenditures per FTE by Institution, Discipline and Instructional Level	
1999-2000 USHE Full Cost Study	. 5

#### **COST STUDY**

#### **Background**

The USHE cost study provides information by major program on direct and calculated indirect instructional costs for each institution and for the total system.

Direct and indirect costs of instruction in courses creditable for degrees or other formal awards are broken down between Vocational Education, Lower Division, Upper Division, Basic Graduate, and Advanced Graduate courses, and the following figures are provided for each institutional category: (1) Total Appropriated Instructional Expenditures; (2) Calculated Estimated Full Cost of Instruction; (3) Annualized number of Academic Year Equivalent FTE Students; (4) Calculated Appropriated FTE Student/Faculty Ratio (students per faculty FTE); (5) Appropriated Direct Cost per FTE Student; and (6) Calculated Full Cost of Instruction per FTE Student.

Appropriated direct costs of instruction include applicable expenditures from Education and General line items plus other line items that support instruction.

#### **Explanation of Attachments**

A history of key elements of the cost study and a summary table from the 1999-2000 cost study are provided in pages 2 through 4, followed by institutional schedules showing greater detail on the calculations. Schedule A for total USHE and for each institution provides information on the indirect cost allocations by major program, and Schedule B provides both dollar amounts and amounts per FTE student for both full and direct costs of instruction.

In looking at the cost information for different institutions, the reader should keep in mind the factors that influence costs, particularly direct and indirect costs of instruction. These include level of instruction (advanced courses typically are more expensive), subject matter mix (Natural Sciences, Engineering, Fine Arts, and Health Professions typically are more expensive), institutional size, and amount of physical plant in relation to enrollment size.

USHE instructional cost information desegregated by level and subject matter cluster is summarized on pages 3 and 4 but should not be the exclusive basis for judging relative adequacy of institutional budgets.

#### **STAFFING**

#### **Background**

As part of their overall master planning effort, the Board of Regents has adopted a policy on faculty teaching workload that defines standard teaching loads for faculty at each USHE institution (Policy R-485–Faculty Workload Guidelines). One of the reports provides data to allow the Regents to evaluate actual institutional performance against this policy. A second report, that provides a full statistical reporting of all USHE employees as of Fall Semester 2000, is the product of an overall process to improve the quality and quantity of system-level data available through the USHE.

#### **Explanation of Attachments**

Employee Count for Fall 2000 presents the full employee count of each USHE institution and for the system as a whole. Employees are grouped into two categories: Appropriated and Non-Appropriated. Each group of employees is categorized according to standard higher education functional categories (i.e. instruction, public service, research, etc.).

Report of Faculty Teaching Workload calculates average faculty contact hours, average instructional credit hours, and student credit hours per full-time regular faculty FTE and per part-time faculty headcount. These measures are arrayed by institution type, faculty type, and instructional level for full-time regular faculty. Faculty contact hours is a measure intended to represent the actual contact time faculty have with students each week. Instructional credit hours reflect the published credit hour values of the classes faculty members teach. Student credit hours equal instructional credit hours multiplied by the number of students in a given class.

#### **FACILITIES**

#### **Background**

The Utah System of Higher Education's (USHE) Qualification and Prioritization (Q & P) Process was developed to provide a quantified assessment of capital facility needs throughout the System. Following the Q&P guidelines established in Regents' Policy (R741), USHE institutions provide space inventory data to the Office of the Commissioner of Higher Education (OCHE) annually.

#### **Explanation of Attachments**

In order to obtain accurate and consistent data, four unique space categories have been established to assist institutions when typing and classifying space for inventory purposes. Institutions are required to comply with the following definitions in relationship to these Q&P space categories.

**Q&P Space:** Space remaining after backing out Auxiliary, Hospital, and Institutional Unique space.

**Auxiliary Space:** Space associated with formally approved auxiliaries included in Regents' Policy R550, and appropriate prorations of space that directly support Intercollegiate Athletics and Student Recreation.

Hospital Space: University Hospital and associated health sciences space and clinics.

*Institutional Unique Space*: Space of the following types: public broadcasting facilities, museums and galleries, extension, farms, greenhouses, space shared with other USHE institutions (i.e., University Centers), student health clinics, hosting and conference centers (i.e., alumni house, president's residence), public service theaters, specialized research/institution centers and labs (i.e., ROTC, Space Dynamics Lab, Edith Bowen School), public service day care and airport hangers.

The following tables provide detailed information regarding the inventory of square footage separated by class type at each institution. Tables 1 and 2 provide information regarding space inventory totals for the USHE. Tables 3 through 12 report specific institutional data. Institutional data is based on Fall 2000 inventory figures.

#### COMPARISON GROUP FINANCIAL COMPARISONS

#### **Background**

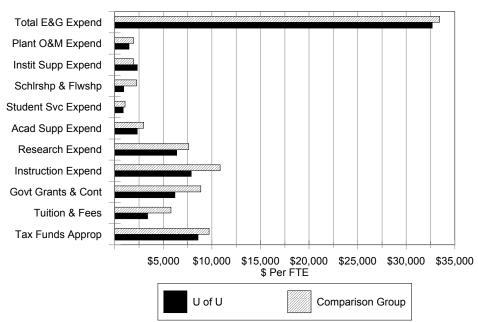

This tab includes an annual analysis comparing each USHE institution with its approved list of peer institutions on a number of financial and statistical measures. The peer lists were updated in 2000 to correct for changes in the status of some of the institutions. Six sets of peer institutions are used: one each for the University of Utah, Utah State University, Utah Valley State College and Salt Lake Community College, a single set for both Weber State University and Southern Utah University and one set for Snow College, Dixie State College and the College of Eastern Utah.

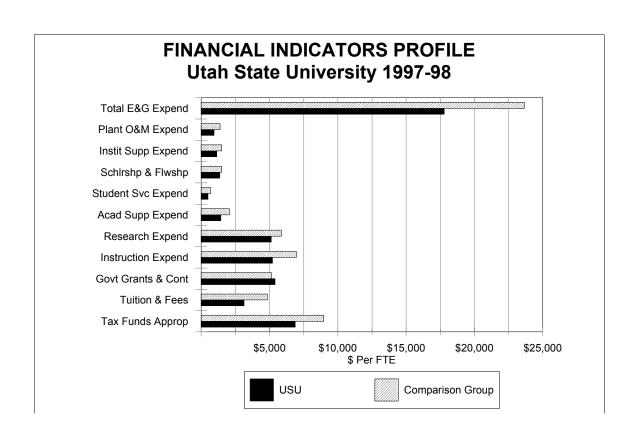

#### **Explanation of Attachments**

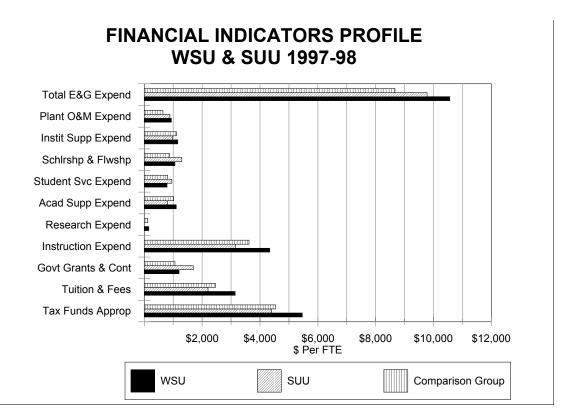

Figures 1 through 6 provide individual Financial Indicators Profiles for each of the nine USHE institutions, comparing the Utah institution to the appropriate comparison group on eleven of the most relevant indicators. The first eight indicators are key expenditure relationships and the remaining three are key revenue relationships. These eleven indicators and additional indicators are presented in greater detail in the tables following the figures. Institutions are listed in each table from high to low according to the most recent year.
