

General Education Navigator/Academic Year 2023-24

SNOW COLLEGE

Snow College's General Education (GE) program provides the subject-area knowledge and learning skills foundation for its 2- and 4-year degrees. **Core** and **Institution** courses make up the general education foundation. **Breadth/Knowledge Area** courses give an opportunity to explore various subjects. General education courses are highly advisable for concurrent enrollment students; they are required for college graduation and transferable from one Utah System of Higher Education (USHE) institution to another.

Students completing all **33 GE credits – 5 concurrent enrollment classes each junior and senior year plus register separately for Integrated Exploration** – can earn a **Snow College Certificate of Completion in General Education** that is transferrable to all USHE institutions.

1. **Review the class list below with parents and counselors. Follow the instructions, in blue, to select classes in each GE category.** Most of the courses on this list are available over IVC to all high schools that partner with Snow College with additional face-to-face GE classes available at some individual high schools.
2. **Speak with experts about GE choices.** 1. Ask a high school counselor which GE classes are available at your school; ask about other ways to fulfill GE requirements (AP, for example). 2. Ask a Snow academic advisor (<https://snow.edu/ce>) how your course choices will fit different certificate or degree programs.
3. **Are you ready to be a Badger? Let's get started. Go to snow.edu/ce and contact your Snow College concurrent enrollment advisor today.**
