

## General Education Navigator/Academic Year 2024-25

SUU's General Education (GE) program provides the subject-area knowledge and learning skills foundation for 2- and 4-year degrees. **Core** and **Institution** courses make up the general education foundation.

**Breadth** courses give an opportunity to explore various subjects. GE courses are highly advisable for concurrent enrollment students; they are required for college graduation and are transferable from one Utah System of Higher Education (USHE) institution to another.

1. Review the class list below with parents and counselors. Follow the instructions in blue to select classes in each GE category.
2. Speak with experts about GE choices. 1. Ask your high school counselor which GE classes are available at your school; ask about other ways to fulfill GE requirements (AP, for example). 2. Ask SUU academic advisors Craig Lewis ([craiglewis@suu.edu](mailto:craiglewis@suu.edu)) or Kristi Larrison ([kristilarrison@suu.edu](mailto:kristilarrison@suu.edu)) how course choices will fit different certificate and degree programs.
3. Are you ready to be a Thunderbird? Let's get started. <https://www.suu.edu/concurrent/>

GEOG 1000/1005		Earth's Natural Environment: Physical Geography/Lab	3/1		

\* For the GE Certificate, students are required to have a minimum of 30 total General Education credits. It is possible that a student may end up at only 29 credits if they opt out of taking science lab courses. If that occurs, the student needs to select another GE course in any of the Breadth categories to get their GE credit total above 30. For an Associates degree, 60 credits or more are required.
