

SLCC General Education Navigator

Academic Year 2026-27

General Education (GE) courses are highly advisable for concurrent enrollment students as they are the foundation for 2- and 4-year degrees; they are required for college graduation and transferable from one Utah System of Higher Education (USHE) institution to another.

1. Review the class list below.
2. Speak with experts about GE choices. Talk with your high school counselor about which GE classes are available at your school, including all options such as AP Courses. You may also want to talk with a SLCC CE advisor.
3. **Are you ready to be an SLCC Bruin? Let's get started!**

Core General Education Credit (12 credits minimum)

Complete 12 core genEd credits from among Written Communication, Quantitative Literacy, and American Institutions.

Written Communication (WC) – 6 credits with a grade of C- or better

SLCC Concurrent Enrollment Courses	Credits	My Choices
ENGL 1010 <i>Intro to Writing</i>	3	
ENGL 2010 <i>Intermediate Writing (prereq: ENGL 1010)</i>	3

CE Options for High School Graduation Requirement

The following is a general list of SLCC Concurrent Enrollment (CE) courses that fulfill both high school graduation requirements and general education (GE) requirements in higher education. This is not a complete list of all CE or GE courses at SLCC. Refer to the [Concurrent Enrollment Master List](#) for full course options and details.

High School Requirements

Language Arts (4.0 HS Units)

High School Requirement	SLCC CE Options	SLCC GE Certificate
Language Arts 9, 10 & 11 (1.0 each)	N/A — Secondary Only	N/A
Language Arts 12 or Applied & Advanced (1.0)	ENGL 1010 <i>Intro to Writing: Academic Prose</i> ENGL 2010 <i>Intermediate Writing</i> ENGL 2100 <i>Technical Writing</i> HUMA 1010 <i>Intro to the Humanities</i>	WC WC WC H

Which QL Math class is right for you? Select a college math class that fits your college and career path.

Most certificate and all degree programs require students to complete a Quantitative Literacy (QL) class*. You are encouraged to complete QL senior year of high school. Different QL classes provide the math foundation for different pathways.

MATH 1030 – Intro to Quantitative Reasoning

An appropriate math class for the general studies or liberal arts student majoring in humanities or other programs not related to math and science. The class covers a broad scope of mathematical topics as they apply to real-world problems. Topics include reasoning and number sense, using percents and estimation, math for finance matters such as loans and investments, probability and statistics, and modeling. *MATH 1030 may be the last Math class you take in college.*

MATH 1040 – Intro to Statistics

Recommended particularly for students in programs desiring statistical literacy, including but not limited to Social Science, Behavioral Sciences, and Nursing (college may require 1040 or 1050). This class includes descriptive and inferential statistical methods. Topics include sampling design, descriptive statistics, linear regression and correlation, probability, sampling distributions, and hypothesis testing and confidence intervals. *MATH 1040 may be the last Math class you take in college.*

MATH 1050 – College Algebra

Designed for students interested in Mathematics, Science, Engineering, Technology and Business. An in-depth exploration of algebra topics designed to ultimately prepare students for Calculus or further education classes. Topics include functions, including polynomial, rational, exponential, and logarithmic; systems of equations; matrices and determinants; partial fraction decomposition; conics; and sequences and series. *MATH 1050 is the first Math class you will likely take in college.*

**MATH 1010 Intermediate Algebra does not fulfill the QL requirement. It is intended only for students who cannot place into a QL course after completion of Secondary MATH III.*
