Whether you are in junior high or high school, you're likely thinking about college.

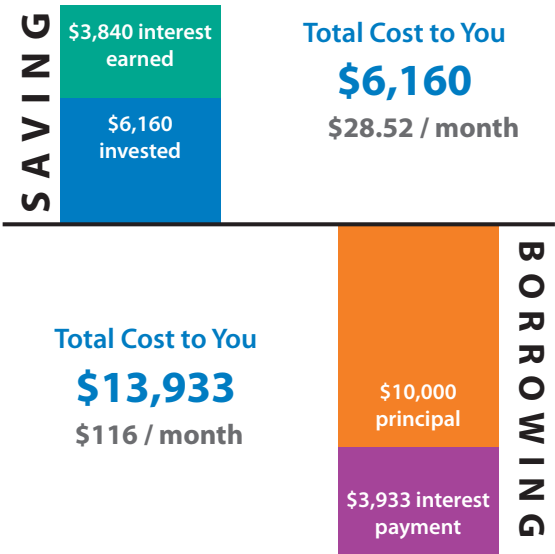

You have options—technical school, college or university.

How can a 529 plan help you get where you want to go?

- You may be looking at scholarships, but they may not cover the entire cost of college.
- Every dollar you save is one less dollar you will need to borrow and repay with interest.

Saving vs Borrowing For College (\$10,000 Goal)

All numbers are estimates. Earnings over 18 years assume a contribution of \$28.52 at account opening and on the first day of each month, with a 5 percent rate of return compounded monthly. The monthly loan repayment assumes a 7 percent interest rate and a 10-year repayment period. Numbers are rounded. This chart is to be used for illustrative purposes only.
