

National Exam Equivalency Charts

The charts in this document contain the standardized minimum scores, maximum credits, and course equivalencies for institutions in the Utah System of Education (USHE). These scores are determined by USHE Faculty Major Committees as required in Board of Higher Education Policy R472, Utah State Code §53B-16-105, and the Northwest Commission on Colleges and Universities *Standards 1.C.8*. The credit equivalencies in this document are for the following exams:

- Advanced Placement (AP) Exams developed by the College Board that are related to AP High school courses;
- College Level Examination Program (CLEP) exams that were developed by the College Board to measure college-level learning;
- Defense Activity for Non-Traditional Education Support Subject Standardized Tests (DSSTs) which are exams administered by Prometric;
- International Baccalaureate Programmes (IB) exams, an internationally-based academic program that provides advanced high school courses that contain college-level content.

Information in the third column, “Needs to be Reviewed,” are notations that indicate a major committee is reviewing changes in course content and examinations made by the organizations that supervise the exams.
